CONTENTS

Commenced in May 1980 Vol. 33 No. 6 Jun. 2012 (Monthly)

Applications of parabolized stability equation for predicting transition position in boundary layers ..... (679)
Jia LI (李 佳), Ji-sheng LUO (罗纪生)
Iterative and adjusting method for computing stream function and velocity potential in limited domains and convergence analysis ..... (687)
Ai-bing LI (黎爱兵), Li-feng ZHANG (张立凤), Zeng-liang ZANG (臧增亮), Yun ZHANG (张 云)
Numerical simulation of trajectory and deformation of bubble in tip vortex ..... (701)
Bao-yu NI (倪宝玉), A-man ZHANG (张阿漫), Xiong-liang YAO (姚熊亮), Bin WANG (汪 斌)
Flow on oscillating rectangular duct for Maxwell fluid ..... (717)
M. NAZAR, F. SHAHID, M. SAEED AKRAM, Q. SULTAN
Computational study of combined effects of conduction-radiation and hydromagnetics on natural convection flow past magnetized permeable plate ..... (731)
M. ASHRAF, S. ASGHAR, M. A. HOSSAIN
MHD axisymmetric flow of third grade fluid between porous disks with heat transfer ..... (749)
T. HAYAT, A. SHAFIQ, M. NAWAZ, A. ALSAEDI
Thermophoresis and Brownian motion effects on boundary layer flow of nanofluid in presence of thermal stratification due to solar energy ..... (765)
N. ANBUCHEZHIAN, K. SRINIVASAN, K. CHANDRASEKARAN, R. KANDASAMY
Engineering measures for preventing upheaval buckling of buried submarine pipelines ..... (781)
Run LIU (刘 润), Wu-gang WANG (王武刚), Shu-wang YAN (闫澍旺), Xin-li WU (吴新利)
Reflection and refraction of attenuated waves at boundary of elastic solid and porous solid saturated with two immiscible viscous fluids ..... (797)
M. KUMAR, R. SAINI
Asymptotic analysis on weakly forced vibration of axially moving viscoelastic beam constituted by standard linear solid model ..... (817)
Bo WANG (王 波)
