BEYOND THE PERIODIC TABLE

EDITORIAL

535 Periodic celebrations

On its 150th anniversary, Mendeleev's periodic table still has stories to tell

FEATURES

551 Beyond the periodic table

The masterpiece's enduring influence

552 On the edge of the periodic table

Researchers explore the chemistry of the superheavy elements

COMMENT

557 Can quantum ideas explain chemistry's greatest icon?

Eric Scerri

Why simplistic assumptions about the periodic table can lead us astray

559 The women behind the periodic table

Brigitte Van Tiggelen & Annette Lykknes
Female researchers who revolutionized our knowledge of the elements

BOOKS & ARTS

563 Elements: a 2,000-year story

Jennifer Rampling

564 In retrospect: The Periodic Table

Tim Radford

NEWS & VIEWS

570 The first synthetic element

Kit Chapman

FUTURES

670 Elementary school

COVER ILLUSTRATION BY SEÑOR SALME

THIS WEEK

EDITORIALS

535 STEM-CELL THERAPY

Slow down

Japan's 'fast-track' system to approve treatments hinders good science

536 GENETICS

Early detection

Improvements in prenatal diagnostics must come with genetic counselling

WORLD VIEW

537 To learn inclusion skills, make it personal

David Asai

Lab leaders need training to connect people across culture and race

RESEARCH HIGHLIGHTS

538 SELECTIONS FROM THE SCIENTIFIC LITERATURE

Virus versus eye tumour / A swimming lesson from physics / Ants' accidental teamwork / Methane showers on Titan

SEVEN DAYS

540 THE NEWS IN BRIEF

Doomsday Clock portends peril / A fatal dam collapse in Brazil / Lassa fever breaks out in Nigeria

NEWS IN FOCUS

543 ECOLOGY

Poison-dropping drones unleashed in Galapagos to save wildlife from rats

544 JAPAN

Approval of a stem-cell therapy to treat spinal-cord injury has scientists worried

545 POLITICS

As US government shutdown ends, researchers brace for further disruption

546 POLITICS

Ethnic land swaps between Kosovo and Serbia threaten research collaborations

547 BREXIT

Split threatens Irish science on both sides of the border

548 ECOLOGY

Ethiopian project aims to preserve pockets of forest around churches

COMMENT

CORRESPONDENCE

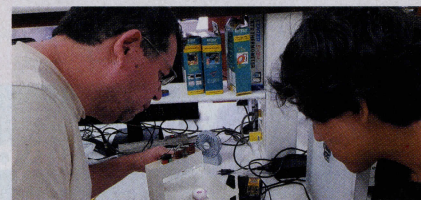

567 Madagascar's government must protect biodiversity / List Malagasy trees as endangered / Role for United Nations in gene-editing debate? / Cut emissions to 1955 levels / Idea for units reform harks back to Thomas Jefferson

OBITUARY

568 Shoucheng Zhang (1963–2018)

Steven Kivelson

CAREERS

665 COLLABORATION

Plug into industry

Productive partnerships between researchers and technology giants

667 WORKING RELATIONSHIPS

How mentors affect careers

Why mentoring received during a postdoc gives the biggest benefit

CONTENTS

NEW ONLINE

569 Papers published this week at nature.com

NEWS & VIEWS

570 IN RETROSPECT

The first synthetic element

The discovery of technetium
Kit Chapman

571 PALAEOANTHROPOLOGY

Dating of hominin discoveries at Denisova

Revised dating information illuminates the excavations of Denisova Cave
Robin Dennell

SEE ARTICLE P.594 & LETTER P.640

573 IMMUNOTHERAPY

A gut punch fights cancer and infection

Human gut bacteria boost immune cells that have cell-killing capacity
Nathan E Reticker-Flynn & Edgar G Engleman

SEE ARTICLE P.600

574 ATMOSPHERIC CHEMISTRY

Aerosol-formation assumptions reassessed

Production rates of secondary organic aerosols have been underestimated
Fangqun Yu SEE ARTICLE P.587

575 HOST-MICROBE INTERACTIONS

Plants fight fungi using kiwellin proteins

A defence mechanism thwarts fungal interference with host metabolism
Mary C Wildermuth

SEE LETTER P.650

577 PLASMA PHYSICS

Statistical models boost fusion performance

Tripling the yield in direct-drive laser fusion
Mark C Herrmann SEE ARTICLE P.581

578 MOLECULAR BIOLOGY

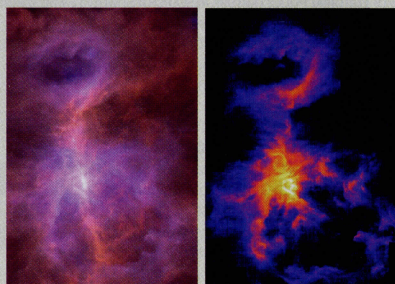

Intron RNA sequences promote cell survival

Discovery of a physiological role for introns in yeast cells
Samantha R Edwards & Tracy L Johnson
