

CONTENTS

3 October 2019 / Vol 574 / Issue No 7776

THIS WEEK

EDITORIALS

- 5 **CHINA**
Independently wealthy
What other science academies could learn from China's autonomous body
- 5 **RESEARCH MANAGEMENT**
Excellent problem
Embrace Wellcome's mission to create a kinder research culture
- 6 **AQUACULTURE**
Let fishers share
Provide children in Africa and Asia with essential micronutrients

WORLD VIEW

7 **We are all complicit in harassment and abuse**
Virginia Valian
Researchers must collectively create ways to take responsibility for combating bad behaviour

RESEARCH HIGHLIGHTS

- 8 **SELECTIONS FROM THE SCIENTIFIC LITERATURE**
Landslides linked to rice-growing / Jumbo crocodile in plain sight / Curvy circuits / Norovirus model / Firmly bonded felines / The maths of parking

SEVEN DAYS

- 10 **THE NEWS IN BRIEF**
Reprieve for Green Bank telescope / Arctic sea ice hits near-record low / Countries' climate pledges / Caltech cash boost / Interstellar comet / Poll highlights coercive citations

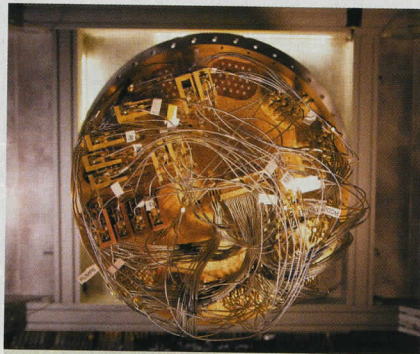

CAREERS

- 139 **CREATIVE COLLABORATION**
Strength in numbers
How smarter ways to pool resources can give a big boost to research
- 141 **FUNDING**
UK funders pledge support
Updated treaty addresses current trends in research-career development

NEWS IN FOCUS

- 13 **POLITICS**
Iranian scientists stymied by effects of US sanctions
- 15 **GENETICS**
Researchers race to create fungus-resistant banana using CRISPR
- 16 **TECHNOLOGY**
India pushes for alternatives to animals in biomedical research
- 16 **ASTRONOMY**
World's largest single-dish telescope prepares to open in China
- 17 **ENVIRONMENT**
Oceans losing power to stall climate change, warns UN special report

FEATURES

PHYSICS

Practically quantum

The hunt is on for useful quantum computers **PAGE 19**

- 22 **BUSINESS**
The quantum gold rush
A *Nature* analysis explores the money flowing into quantum technology

TECHNOLOGY

- 137 **ARTIFICIAL INTELLIGENCE**
Motion tracking takes off
Deep-learning algorithms are powering tools for analysing animal behaviour

COMMENT

150 YEARS OF NATURE

The path to power

Shellen Wu traces China's rise to dominance in science **PAGE 25**

- 29 **PUBLIC HEALTH**
Face masks could raise pollution risks
Wei Huang and Lidia Morawska
Clean air must be a top priority for research and regulation

BOOKS & ARTS

- 32 **ARTIFICIAL INTELLIGENCE**
Raging robots, hapless humans: the AI dystopia
David Leslie

- 34 **HEALTH**
Life after reproduction
Julia Prague
- 35 **BOOKS IN BRIEF**

CORRESPONDENCE

- 36 Offshore groundwater could save coastal cities / A history of hysteria / No IQ tests for early US immigrants / Darwin's contributions to *Nature* / Giant fish bucks population decline

FUTURES

- 144 **You will remember this**
Justen Russell

CONTENTS

3 October 2019 / Vol 574 / Issue No 7776

RESEARCH

NEW ONLINE

37 Papers published this week at nature.com

NEWS & VIEWS

38 EVOLUTION

Frog mothers' powerful influence

Maternal colour affects mate choice and aggression of offspring

Machteld Verzijden [SEE LETTER P.99](#)

39 CONDENSED-MATTER PHYSICS

Exotic state seen at high temperatures

Evidence of exciton condensation in atomically thin semiconductors

Andrey Chaves & David Neilson

[SEE LETTER P.76](#)

41 FISHERIES

Micronutrient richness of global fish catches

Fish retained for local consumption could boost public health

Daniel Pauly [SEE LETTER P.95](#)

42 SYNTHESIS

Chemical libraries from a double click

A click reaction for making azides

Joseph J Topczewski & En-Chih Liu

[SEE LETTER P.86](#)

43 NEUROSCIENCE

A daily rhythm in colour preference

Why fruit flies like green at certain times but always avoid blue

Charlotte Helfrich-Förster

[SEE LETTER P.108](#)

REVIEW

45 CANCER IMMUNOTHERAPY Harnessing innate immunity in cancer therapy

O Demaria et al.

ARTICLES

57 PATHOGENS FPR1 is the plague receptor on host immune cells

P Osei-Owusu, T M Charlton, H K Kim, D Missiakas & O Schneewind

63 METABOLIC DISEASES Treatment of type 2 diabetes with the designer cytokine IC7Fc

M Findeisen et al.

LETTERS

69 ASTRONOMY Two major accretion epochs in M31 from two distinct populations of globular clusters

D Mackey et al.

ON THE COVER

Parental guidance

Yusan Yang and colleagues show that females of the strawberry poison frog (*Oophaga pumilio*), a Central American species that displays a range of skin colours, prefer to mate with males of the same colour. This sets the stage for speciation to occur by sexual selection. [PAGES 38 & 99](#)

72 CONDENSED-MATTER PHYSICS

Constraints on the superconducting order parameter in Sr_2RuO_4 from oxygen-17 nuclear magnetic resonance

A Pustogow et al.

76 CONDENSED-MATTER PHYSICS Evidence of high-temperature exciton condensation in two-dimensional atomic double layers

Z Wang et al. [SEE N&V P.39](#)

81 CHEMISTRY PdMo bimetallic for oxygen reduction catalysis

M Luo et al.

86 SYNTHESIS Modular click chemistry libraries for functional screens using a diazotizing reagent

G Meng et al. [SEE N&V P.42](#)

90 ENVIRONMENTAL SCIENCE Environmental flow limits to global groundwater pumping

I E M de Graaf et al.

95 FISHERIES Harnessing global fisheries

to tackle micronutrient deficiencies
C C Hicks et al. [SEE N&V P.41](#)

99 EVOLUTION Imprinting sets the stage for speciation

Y Yang, M R Servedio & C L Richards-Zawacki [SEE N&V P.38](#)

103 PALAEOANTHROPOLOGY Early Pleistocene enamel proteome from Dmanisi resolves *Stephanorhinus* phylogeny

E Cappellini et al.

108 NEUROSCIENCE Daytime colour preference in *Drosophila* depends on the circadian clock and TRP channels

S Lazopulo, A Lazopulo, J D Baker & S Syed [SEE N&V P.43](#)

112 DEVELOPMENTAL BIOLOGY Modelling human hepato-biliary-pancreatic organogenesis from the foregut-midgut boundary

H Koike et al.

117 MICROBIOLOGY Stunted microbiota and opportunistic pathogen colonization in caesarean-section birth

Y Shao et al.

122 IMMUNOLOGY Analysis of the B cell receptor repertoire in six immune-mediated diseases

R J M Bashford-Rogers et al.

127 CANCER THERAPY The Drug Rediscovery protocol facilitates the expanded use of existing anticancer drugs

D L van der Velden et al.

132 STRUCTURAL BIOLOGY Crystal structure of heliorhodopsin

W Shihoya et al.

PALAEOANTHROPOLOGY

Molar yield

Enamel protein pushes back limits of molecular phylogenetics. [PAGE 103](#)
