

# CHINESE JOURNAL OF MECHANICAL ENGINEERING

Vol. 23, No. 4, 2010

## Contents

- 403 **Dynamic Manipulability and Optimization of a Two DOF Parallel Mechanism**  
SHAO Hua, WANG Jinsong, WANG Liping, and GUAN Liwen
- 410 **Wheel-rail Profiles Matching Design Considering Railway Track Parameters**  
CUI Dabin, LI Li, JIN Xuesong, and LI Ling
- 418 **Water-Assisted Injection Molding System Based on Water Hydraulic Proportional Control Technique**  
ZHOU Hua, ZHANG Zengmeng, GAO Yuan'an, and YANG Huayong
- 428 **Methods for Integrating Energy Consumption and Environmental Impact Considerations into the Production Operation of Machining Processes**  
HE Yan and LIU Fei
- 436 **Design of Robot Welding Seam Tracking System with Structured Light Vision**  
LIU Suyi, WANG Guorong, ZHANG Hua, and JIA Jianping
- 443 **Improved Hybrid Robust Control Method for the Electromechanical Actuator in Aircrafts**  
LU Hao, LI Yunhua, TIAN Shengli, and NIE Zhenjin
- 451 **Entrance Effect on Load Capacity of Orifice Compensated Aerostatic Bearing with Feeding Pocket**  
LONG Wei and BAO Gang
- 460 **New Method to Measure the Fill Level of the Ball Mill I—Theoretical Analysis and DEM Simulation**  
HUANG Peng, JIA Minping, and ZHONG Binglin
- 468 **Comparative Analysis of Characteristics of the Coupled and Decoupled Parallel Mechanisms**  
ZENG Daxing, HOU Yulei, LU Wenjuan, and HUANG Zhen
- 477 **Analytical Solution for Three-dimensional Forging Taking into Account Bulging of Sides by Mean Yield Criterion**  
Du Haijun, ZHAO Dewen, WANG Genji, and WANG Guodong
- 484 **New Hybrid Parallel Algorithm for Variable-sized Batch Splitting Scheduling with Alternative Machines in Job Shops**  
ZHAO Yanwei, WANG Haiyan, WANG Wanliang, and XU Xinli
- 496 **General Model of Fuzzy Plasticity**  
ZHANG Chunliang and ZHANG Liangchi

- 505 **Multidisciplinary Design Optimization with a New Effective Method**  
CHEN Xiaokai, LI Bangguo, and LIN Yi
- 511 **Reliability Analysis of Electromechanical Systems with Degraded Components  
Containing Multiple Performance Parameters**  
LI Chunyang, CHEN Xun, and YI Xiaoshan
- 517 **Modeling and Verification of an Astronaut Handling Large-mass Payload**  
YANG Aiping, YANG Chunxin, and KE Peng
- 524 **Stiffness of Postural Alignment System Based on 3-Axis Actuators  
for Large Aircraft Components**  
GUO Zhimin, JIANG Junxia, and KE Yinglin
- 532 **Characterization of the Elastic-plastic Region Based on Magnetic Memory Effect**  
LENG Jiancheng, XU Minqiang, LI Jianwei, and ZHANG Jiazhong
- I Contents and Abstracts of Journal of Mechanical Engineering, Vol. 46, No. 13–16, 2010
