

# Building Services Engineering Research & Technology

---

Volume 40, Number 1, 2019

## Contents

### Review

- The role of feedback in building design 1980–2018 and onwards  
*D Clements-Croome* 5

### Articles

- Characterising micro-channel absorber plates for building integrated solar thermal collectors  
*MA Oyinola and GSF Shire* 13
- Can the choice of building performance simulation tool significantly alter the level of predicted indoor overheating risk in London flats?  
*G Petrou, A Mavrogianni, P Symonds, A Mylona, D Virk, R Raslan and M Davies* 30
- An enhanced operation model for energy storage system of a typical combined cool, heat and power based on demand response program: The application of mixed integer linear programming  
*A Eshraghi, G Salehi, S Heibati and K Lari* 47
- Space heating operation of combination boilers in the UK: The case for addressing real-world boiler performance  
*G Bennett, C Elwell and T Oreszczyn* 75
- A study of linear PMSM driven ropeless elevators  
*A So and WL Chan* 93
- Parametric analysis of the wind-driven ventilation potential of buildings with rectangular layout  
*M Ferrucci and M Brocato* 109
