

Lighting Research & Technology

Contents

Editorial: What does it take to change a metric? <i>P Boyce</i>	491
Opinion: Are LEDs the only answer? <i>L Bedocs</i>	492
A proposal for a simplified model to evaluate the circadian effects of light sources <i>L Bellia and M Seraceni</i>	493
Daylight exposure has a positive carryover effect on nighttime performance and subjective sleepiness <i>MG Figueiro, S Nonaka and MS Rea</i>	506
Defining the visual adaptation field for mesopic photometry: Does surrounding luminance affect peripheral adaptation? <i>T Uchida and Y Ohno</i>	520
A natural lighting system using a prismatic daylight collector <i>S-C Yeh</i>	534
A supplementary lighting and regulatory scheme using a multi-wavelength light emitting diode module for greenhouse application <i>C-L Chang, G-F Hong and Y-L Li</i>	548
A discontinuous surface reflector for high-power integrated LEDs <i>F Liu, L Chen, B Tang, Y Hu, Q Lin and L Lei</i>	567
Thermal simulation and validation of LED-based luminaires using two-resistor compact thermal model <i>MB Yurtseven, S Onaygil and G Ogus</i>	576
The correlation of veiling luminance and unified glare rating with a transfer function <i>C-J Jiang, C-C Sun, Y-C Chen, T-H Yang and N Chang</i>	587
A dynamic adaptive light field sampling approach for smart lighting control <i>F Dong and AC Sanderson</i>	593

All figures that were originally provided in colour will appear in colour online
