Volume 49

Issue 1

Contents

Original Articles

- | | |
|---|----|
| Micro–macro wear–fatigue of modular hip implant taper-lock coupling T Zhang, NM Harrison, PF McDonnell, PE McHugh and SB Leen | 2 |
| Low-cycle fatigue life estimation of steam turbine rotor steels at high temperature F Lv, K Wang and S Huang | 19 |
| Frictional energy dissipation in Hertzian contact under biaxial tangential harmonically varying loads M Ciavarella | 27 |
| Integrating experiments and simulations to estimate uncertainty in lattice strain measurements JC Schuren, SL Wong, PR Dawson and MP Miller | 33 |
| Thermal buckling of piezoelectric functionally graded material deep spherical shells M Sabzikar Boroujerdy and MR Eslami | 51 |
