Original Articles

- Residual stress characterization in 12%-Cr steel friction stir welds by neutron diffraction 203
T-S Jun, F Hofmann, M Hofmann and AM Korsunsky
- Analysis of image series through global digital image correlation 214
G Besnard, H Leclerc, F Hild, S Roux and N Swiergiel
- Modelling of high-temperature inelastic behaviour of the austenitic steel AISI type 316 using a continuum damage mechanics approach 229
Y Gorash, H Altenbach and G Lvov
- Damage assessment of fibre reinforced composites using shape descriptors 244
AS Patki and EA Patterson
- Measurement, analysis and reconstruction of residual stresses 254
SA Faghidian, D Goudar, GH Farrahi and DJ Smith
