SPECIAL ISSUE ON STRAIN MEASUREMENT BY SYNCHROTRON X-RAYS

## CONTENTS

- Guest Editorial** 525
- Far-field high-energy diffraction microscopy: a tool for intergranular orientation and strain analysis** 527  
J V Bernier, N R Barton, U Lienert, and M P Miller
- Three-dimensional strain mapping using in situ X-ray synchrotron microtomography** 549  
H Toda, E Maire, Y Aoki, and M Kobayashi
- Time- and temperature-resolved synchrotron X-ray diffraction: observation of phase transformation and strain evolution in novel low temperature transformation weld filler materials** 563  
J Altenkirch, J Gibmeier, V Kostov, A Kromm, Th Kannengiesser, S Doyle, and A Wanner
- High-energy synchrotron diffraction study of a transformation induced plasticity steel during tensile deformation** 581  
A Kromm, S Brauser, T Kannengiesser, and M Rethmeier
- In-situ stress and strain measurements around cracks using synchrotron X-ray diffraction** 593  
A Steuwer and J E Daniels
- Magnetic-field-driven reversal phase transition in highly textured and self-accommodated martensites of Ni-Co-Mn-In composite** 607  
D M Liu, Z H Nie, Y D Wang, P K Liaw, and Y Ren
- Exploiting the features of energy-dispersive synchrotron diffraction for advanced residual stress and texture analysis** 615  
Ch Genzel, I A Denks, R Coelho, D Thomas, R Mainz, D Apel, and M Klaus
- Synchrotron strain scanning for residual stress measurement in cold-drawn steel rods** 627  
J Ruiz-Hervias, J M Atienza, and M Elices
- X-ray elastic response of metallic thin film supported by polyimide substrates** 639  
E Le Bourhis, D Faurie, P O Renault, G Geandier, D Thiaudière, O Castelnau, and Ph Goudeau
- Comparison of methods to determine variations in unstrained unit cell parameter across welds** 651  
J Altenkirch, M J Peel, A Steuwer, and P J Withers

**Quantifying the uncertainty of synchrotron-based lattice strain measurements**

J C Schuren and M P Miller

663

**Digital volume correlation analyses of synchrotron tomographic images**

J Réthoré, N Limodin, J-Y Buffière, F Hild, W Ludwig, and S Roux

683

**Ageing effects on the lattice strain behaviour of duplex stainless steel**

K Kiriya, T Shobu, J Shibano, T Fujishiro, H Kaneko, and S Miura
