Editorial

5 Energy demand for hot water supply for indoor environments: Problems and perspectives

X. Li, W. Wu and C. W. F. Yu

Original Papers

11 A review of membrane-based air dehumidification

B. Yang, W. Yuan, F. Gao and B. Guo

27 Comparison of mood and task performance in naturally-lit and artificially-lit environments

Z. Gou, S. S.-Y. Lau and F. Qian

37 HELIOS-EX: Blind control simulator and method with a consideration of adjacent buildings

Y.-B. Seong

52 Environmental radon: Health aspects and present status in northern India

V. Mehta, R. P. Chauhan and G. S. Mudahar

63 Experimental research on temperature and humidity control performance of hwang-toh finishing

K.-I. Lee and D.-W. Yeom

73 Experimental study on one-side confined jets from a parallel-flow outlet in a push-pull ventilation system

Y. Wang, Y. Huang, Y. Zhou, Y. Shu and J. Liu

87 Aerodynamic characteristics of human movement behaviours in full-scale environment: Comparison of limbs pendulum and body motion

Z. Y. Han, W. G. Weng, Q. Y. Huang, M. Fu, J. Yang and N. Luo

101 Thermal comfort characteristics in naturally ventilated, residential apartments in a hot-dry climate of India

A. Udaykumar, E. Rajasekar and R. Venkateswaran

116 Perceptive-cognitive aspects investigation in relation to indoor environment satisfaction collected from naturally ventilated multi-storey student accommodations in Malaysia

N. D. Dahlan

128 Sustainable noise control system design for building ventilation systems

C. M. Mak, W. M. To, T. Y. Tai and Y. Yun

138 Experimental study of factors affecting Pt-TiO₂ thermal catalytic oxidation of formaldehyde

G. Zhang, Y. Hong and W. He
