

## Special Issue on: People and energy use in buildings

Guest Editors: Michelle Shipworth, University College London, UK and Dr Marcella Ucci, University College London, UK

### Editorial

- 863 People and energy use in the indoor and built environment**  
M. Shipworth and M. Ucci

### Original Papers

- 867 Get bill smart: A community-partnership approach to supporting low-income households to achieve home energy savings**  
P. Watson, M. Gabriel and M. Rooney
- 878 Embedding smart energy technology in built environments: A comparative study of four smart grid demonstration projects**  
T. M. Skjølsvold and M. Ryghaug
- 891 Peak residential electricity demand and social practices: Deriving flexibility and greenhouse gas intensities from time use and locational data**  
J. Torriti, R. Hanna, B. Anderson, G. Yeboah and A. Druckman
- 913 Improving energy efficiency in private rented housing: Why don't landlords act?**  
A. R. Ambrose
- 925 Outside influence – Some effects of retrofit installers and advisors on energy behaviours in households**  
A. Owen and G. Mitchell
- 937 A psychology perspective of energy consumption in organisations: The value of participatory interventions**  
P. C. Endrejat, F. E. Klonek and S. Kauffeld
- 950 Diagramming social practice theory: An interdisciplinary experiment exploring practices as networks**  
S. Higginson, E. McKenna, T. Hargreaves, J. Chilvers and M. Thomson
- 970 Improving the installation of renewable heating technology in UK social housing properties through user centred design**  
N. Moore, V. Haines and D. Lilley
- 986 From social and technical to socio-technical: Designing integrated research on domestic energy use**  
J. Love and A. C. G. Cooper
- 999 Understanding the role of building management in the low-energy performance of passive sustainable design: Practices of natural ventilation in a UK office building**  
K. J. Watson
- 1010 Exploring homeowners' perception and experiences in using a domestic smart home heating controller**  
E. Dimitrokali, J. Mackrill, P. Jennings, S. Khanna, V. Harris and R. Cain
