

Contents

Editorial

- 435 **The tyranny of energy conservation in the workplace**
B. Giddings

Original Papers

- 439 **Factors influencing evaluation of patient areas, work spaces, and staff areas by healthcare professionals**
H. Sadatsafavi, J. Walewski and M. M. Shepley
- 457 **Occupants' satisfaction with, and physical readings of, thermal, acoustic, and lighting conditions of sustainable office workspaces**
K. Freihoefer, D. Guerin, C. Martin, H.-Y. Kim and J. K. Brigham
- 473 **Strategies for reduction of episodic risk of PM₁₀ by controlling industrial and traffic emissions of SO₂ and NO₂ and meteorological parameters**
C. Lu, Q.-H. Deng and C. W. F. Yu
- 489 **Use of mean skin temperature in evaluation of individual thermal comfort for a person in a sleeping posture under steady thermal environment**
W. Liu, Z. Lian and Q. Deng

- 500 **Brightness perception of white LED lights with different correlated colour temperatures**
I.-T. Kim, I.-H. Jang, A.-S. Choi and M. Sung
- 514 **Urban heat island in Padua, Italy: Experimental and theoretical analysis**
M. Noro, F. Busato and R. M. Lazzarin
- 534 **Experimental research on physiological response of elderly with cardiovascular disease during heat wave period**
R. Fink, I. Eržen, S. Medved and D. Kastelec
- 544 **Glazing daylighting performance and Trombe wall thermal performance of a modular façade system in four different Portuguese cities**
H. M. Sacht, L. Bragança, M. Almeida and R. Caram
- 564 **Experimental investigation and modelling of human-walking-induced particle resuspension**
S. You and M. P. Wan
