

CONTENTS

26008 - 519LB005

Invited Review

- 1 Exploiting special structure in semidefinite programming: A survey of theory and applications
E. de Klerk

Continuous Optimization

- 11 Optimality conditions via scalarization for a new ϵ -efficiency concept in vector optimization problems
C. Gutiérrez, B. Jiménez and V. Novo
- 23 Extending pricing rules with general risk functions
A. Balbás, R. Balbás and J. Garrido
- 34 A partial-postponement decision cost model
G.A. Graman

Discrete Optimization

- 45 Lagrangian domain reductions for the single machine earliness–tardiness problem with release dates
B. Detienne, É. Pinson and D. Rivreau
- 55 Locating and staffing service centers under service level constraints
P. Venkateshan, K. Mathur and R.H. Ballou
- 71 Lagrangean duals and exact solution to the capacitated p -center problem
M. Albareda-Sambola, J.A. Díaz and E. Fernández
- 82 Embedding learning capability in Lagrangean relaxation: An application to the travelling salesman problem
R. Zamani and S.K. Lau
- 89 New solution methods for single machine bicriteria scheduling problem: Minimization of average flowtime and number of tardy jobs
F.S. Erenay, I. Sabuncuoglu, A. Toptal and M.K. Tiwari

Production, Manufacturing and Logistics

- 99 Concerning the theory of workload control
L.D. Fredendall, D. Ojha and J. Wayne Patterson
- 112 Evaluating the effects of distribution centres on the performance of vendor-managed inventory systems
L. Yang, C.T. Ng and T.C.E. Cheng
- 123 Mining Pareto-optimal modules for delayed product differentiation
Z. Song and A. Kusiak
- 129 Correlation-aware resource service composition and optimal-selection in manufacturing grid
F. Tao, D. Zhao, H. Yefa and Z. Zhou
- 144 A meta-heuristic approach for solving the Urban Network Design Problem
M. Gallo, L. D'Acierno and B. Montella
- 158 An economic production lot size model in an imperfect production system
S.S. Sana
- 171 Heuristics for the dynamic facility layout problem with unequal-area departments
A.R. McKendall Jr. and A. Hakobyan
- 183 On the system optimum of traffic assignment in $M/G/d/c$ state-dependent queueing networks
F.R.B. Cruz, T. van Woensel, J. MacGregor Smith and K. Lieckens

Stochastics and Statistics

- 194 Credit, income, and causality: A contemporary co-integration analysis
A.L. Athanasesas
- 206 Computing option price for Levy process with fuzzy parameters
P. Nowak and M. Romaniuk

Continued on last page of this issue

Instructions for Authors

For the submission of papers to the European Journal of Operational Research please consult the Guide for Authors at <http://authors.elsevier.com/locate/ejor>.

Contents continued from the outside back cover

- 211 Optimal asset allocation for aggregated defined benefit pension funds with stochastic interest rates
R. Josa-Fombellida and J.P. Rincón-Zapatero
- 222 Valuing continuous-installment options
T. Kimura
- 231 Diagnostic errors and repetitive sequential classifications in on-line process control by attributes
R. da Costa Quinino, E.C. Colin and L.L. Ho
- 239 A model for maintenance service contract design, negotiation and optimization
W. Wang
- 247 Queues with slow servers and impatient customers
N. Perel and U. Yechiali

Decision Support

- 259 An adjustment scheme for nonlinear pricing problem with two buyers
H. Ehtamo, K. Berg and M. Kitti
- 267 Comparative statics of changes in risk on monotonically and partially responsive kinked payoffs
A. Hau
- 277 Non-additive robust ordinal regression: A multiple criteria decision model based on the Choquet integral
S. Angilella, S. Greco and B. Matarazzo

Innovative Applications of O.R.

- 289 Non-block scheduling with priority for radiotherapy treatments
D. Conforti, F. Guerriero and R. Guido
- 297 Distribution of cost and profit efficiency: Evidence from Indian banking
S.C. Ray and A. Das
- 308 When in a drug epidemic should the policy objective switch from use reduction to harm reduction?
J.P. Caulkins, G. Feichtinger, G. Tragler and D. Wallner

Short Communications

- 319 A path-dependent contingent-claims approach to capacity investments
T. Driouchi, D. Bennett and G. Simpson
- 324 Joint pricing and procurement of substitutable products with random demands – A technical note
M. Karakul and L.M.A. Chan
- 329 A note on 'Efficient scheduling of periodic information monitoring requests'
M. Short

Corrigendum

- 336 Corrigendum to "Balancing and scheduling tasks in assembly lines with sequence-dependent setup"
[European Journal of Operational Research 187 (2008) 1212–1223]
R. Pastor, C. Andrés and C. Miralles
