

CONTENTS

Invited Review

- 1 A survey of variants and extensions of the resource-constrained project scheduling problem
S. Hartmann and D. Briskorn

Continuous Optimization

- 15 Spectral bounds for unconstrained $(-1,1)$ -quadratic optimization problems
W. Ben-Ameur and J. Neto
- 25 A unifying approach to solve some classes of rank-three multiplicative and fractional programs involving linear functions
R. Cambini and C. Sodini
- 30 On the duality between the profit and the indirect distance functions in production theory
C. Zălinescu
- 37 Column generation decomposition with the degenerate constraints in the subproblem
A. Metrane, F. Soumis and I. Elhallaoui

Discrete Optimization

- 45 An efficient algorithm for the Steiner Tree Problem with revenue, bottleneck and hop objective functions
L.L. Pinto and G. Laporte
- 50 Inverse minimum cost flow problems under the weighted Hamming distance
Y. Jiang, L. Liu, B. Wu and E. Yao
- 55 Iterated greedy local search methods for unrelated parallel machine scheduling
L. Fanjul-Peyro and R. Ruiz
- 70 Scheduling multiple orders per job in a single machine to minimize total completion time
S.J. Mason and J.-S. Chen
- 78 Two point one sided rendezvous
K. Kikuta and W.H. Ruckle
- 83 Multicriteria models for planning power-networking events
R.A. Russell and T.L. Urban
- 92 The capacitated single-allocation hub location problem revisited: A note on a classical formulation
I. Correia, S. Nickel and F. Saldanha-da-Gama
- 97 Flow shops with machine maintenance: Ordered and proportionate cases
B.-C. Choi, K. Lee, J.Y.-T. Leung and M.L. Pinedo
- 105 Generating facets for finite master cyclic group polyhedra using n -step mixed integer rounding functions
K. Kianfar and Y. Fathi

Production, Manufacturing and Logistics

- 110 An ant colony system for enhanced loop-based aisle-network design
A. Asef-Vaziri, M. Kazemi, K. Eshghi and M. Lahmar
- 121 The Generalized-Trend-Diffusion modeling algorithm for small data sets in the early stages of manufacturing systems
Y.-S. Lin and D.-C. Li
- 131 Outsourcing and capacity planning in an uncertain global environment
S. Li and L. Wang
- 142 Coordinating ordering and pricing decisions in a two-stage distribution system with price-sensitive demand through short-term discounting
C.-C. Hsieh, Y.-T. Liu and W.-M. Wang
- 152 A dual-response forwarding approach for containerizing air cargoes under uncertainty, based on stochastic mixed 0-1 programming
Y. Wu

Instructions for Authors

For the submission of papers to the European Journal of Operational Research please consult the Guide for Authors at <http://authors.elsevier.com/locate/ejor>.

Contents continued from the outside back cover

- 165 Manufacturer cooperation in supplier development under risk
S. Talluri, R. Narasimhan and W. Chung
- 174 Exploring the impacts of radio frequency identification (RFID) technology on supply chain performance
K. Sari
- 184 Using graph concepts to assess the feasibility of a sequenced air traffic flow with low conflict rate
D. Prot, C. Rapine, S. Constans and R. Fondacci
- 197 Performance evaluation of purchasing and supply management using value chain DEA approach
H. Saranga and R. Moser
- 206 Modified base-stock policies for semiconductor production system with dependent yield rates
H.-C. Huang and H. Song
- 218 Capacitated location model with online demand pooling in a multi-channel supply chain
K. Liu, Y. Zhou and Z. Zhang
- 232 A coordinating contract for transshipment in a two-company supply chain
B. Hezarkhani and W. Kubiak
- 238 Analysis of industry equilibria in models with sustaining and disruptive technology
X. Huang and G. Sošić
- 249 Methodological analysis of supply chains management applications
L. Di Giacomo and G. Patrizi

Stochastics and Statistics

- 258 Online scheduling policies for multiclass call centers with impatient customers
O. Jouini, A. Pot, G. Koole and Y. Dallery
- 269 A model for real-time failure prognosis based on hidden Markov model and belief rule base
Z.-J. Zhou, C.-H. Hu, D.-L. Xu, M.-Y. Chen and D.-H. Zhou
- 284 Merging experts' opinions: A Bayesian hierarchical model with mixture of prior distributions
M.J. Rufo, C.J. Pérez and J. Martín
- 290 IIS branch-and-cut for joint chance-constrained stochastic programs and application to optimal vaccine allocation
M.W. Tanner and L. Ntamo
- 297 Optimal maintenance of two stochastically deteriorating machines with an intermediate buffer
C.C. Karamatsoukis and E.G. Kyriakidis
- 309 Comparisons and bounds for expected lifetimes of reliability systems
J. Navarro and T. Rychlik

Decision Support

- 318 Using matrices to link conflict evolution and resolution in a graph model
H. Xu, D. Març Kilgour, K.W. Hipel and G. Kemkes
- 330 A competitive dynamic pricing model when demand is interdependent over time
S. Sibdari and D.F. Pyke
- 339 DEA model with shared resources and efficiency decomposition
Y. Chen, J. Du, H. David Sherman and J. Zhu
- 350 WASAN: The development of a facilitated methodology for structuring a waste minimisation problem
D. Shaw and N. Blundell
- 363 Sharing risk through concession contracts
P.L. Scandizzo and M. Ventura
- 371 Set choice problems with incomplete information about the preferences of the decision maker
V.V. Podinovski
- 380 To reveal or not to reveal? Strategic disclosure of private information in negotiation
C.C. Lee and M.J. Ferguson
- 391 Callable risky perpetual debt with protection period
A. Mjøs and S.-A. Persson

Contents continued on previous page

(Contents continued from last page)

- 401 Revenue management model for on-demand IT services
T. Liu, C. Methapatara and L. Wynter
- 409 Risk management strategies via minimax portfolio optimization
G.G. Polak, D.F. Rogers and D.J. Sweeney
- 420 Optimization of R&D project portfolios under endogenous uncertainty
S. Solak, J.-P.B. Clarke, E.L. Johnson and E.R. Barnes

Innovative Applications of O.R.

- 434 Offshore outsourcing decision making: A policy-maker's perspective
Y.C. Tjader, J.S. Shang and L.G. Vargas
- 445 Dynamic cruise ship revenue management
B. Maddah, L. Moussawi-Haidar, M. El-Taha and H. Rida
- 456 Integrated optimization of customer and supplier logistics at Robert Bosch LLC
H. Yildiz, R. Ravi and W. Fairey
- 465 Joint demand and capacity management in a restaurant system
J. Hwang, L. Gao and W. Jang
- 473 Pricing problem in wireless telecommunication product and service bundling
B. Yang and C.T. Ng
- 481 The impact of digital channel distribution on the experience goods industry
M. Khouja and Y. Wang
- 492 Samsung card lending model
J. Huh, W. Chang, J. Lee and J. Lee
- 499 Applying simulation optimization to the asset allocation of a property-casualty insurer
T.-Y. Yu, C. Tsai and H.-T. Huang
- 508 Should you stop investing in a sinking fund when it is sinking?
J. Mingers and K.T. Parker
- 514 Manufacturer's return policy in a two-stage supply chain with two risk-averse retailers and random demand
C.-C. Hsieh and Y.-T. Lu
- 524 A margin scheme that advises on when to change required margin
K. Lam, P.L.H. Yu and P.H. Lee
- 531 Evolutionary stability of auction and supply chain contracting: An analysis based on disintermediation in the Indian tea supply chains
S. Dutta, S.P. Sarmah and S.K. Goyal

Short Communication

- 539 Comment on "Complete solution to a conjecture on Randić index"
L. Pavlović
