

CONTENTS

Invited Review

- 1147 A review of the recent contribution of systems thinking to operational research and management science
J. Mingers and L. White

Continuous Optimization

- 1162 Sensitivity analysis on the priority of the objective functions in lexicographic multiple objective linear programs
E. Khorram, M. Zarepisheh and B.A. Ghaznavi-ghosoni
- 1169 On solving the planar k -centrum problem with Euclidean distances
A.M. Rodríguez-Chía, I. Espejo and Z. Drezner
- 1187 Convergence guarantees for generalized adaptive stochastic search methods for continuous global optimization
R.G. Regis
- 1203 New strong duality results for convex programs with separable constraints
V. Jeyakumar and G. Li
- 1210 A modified alternating direction method for convex quadratically constrained quadratic semidefinite programs
J. Sun and S. Zhang

Discrete Optimization

- 1221 A lower bound for weighted completion time variance
R. Nessah and C. Chu
- 1227 A heuristic procedure for the Capacitated m -Ring-Star problem
Z. Naji-Azimi, M. Salari and P. Toth
- 1235 On heuristic search for the single machine total weighted tardiness problem – Some theoretical insights and their empirical verification
M.J. Geiger
- 1244 The off-line group seat reservation problem
T. Clausen, A.N. Hjorth, M. Nielsen and D. Pisinger
- 1254 A hybrid metaheuristic approach to solving the UBQP problem
Z. Lü, F. Glover and J.-K. Hao

Production, Manufacturing and Logistics

- 1263 Inventory and sales effort management under unobservable lost sales
H.S. Heese and J.M. Swaminathan
- 1269 Social responsibility allocation in two-echelon supply chains: Insights from wholesale price contracts
D. Ni, K.W. Li and X. Tang
- 1280 Environmental safety stock: The impacts of regulatory and voluntary control policies on production planning, inventory control, and environmental performance
C. Chen and G.E. Monahan
- 1293 Ambulance location and relocation problems with time-dependent travel times
V. Schmid and K.F. Doerner
- 1304 A serial inventory system with supplier selection and order quantity allocation
A. Mendoza and J.A. Ventura
- 1316 A note on competitive supply chains with generalised supply costs
D. Atkins and L. Liang
- 1321 Channel coordination under fairness concerns and nonlinear demand
O. Caliskan-Demirag, Y. (Frank) Chen and J. Li
- 1327 A proactive approach for simultaneous berth and quay crane scheduling problem with stochastic arrival and handling time
X.-I. Han, Z.-q. Lu and L.-f. Xi

Instructions for Authors

For the submission of papers to the European Journal of Operational Research please consult the Guide for Authors at <http://authors.elsevier.com/locate/ejor>.

Contents continued from the outside back cover

- 1341 Channel incentives in sharing new product demand information and robust contracts
H. Liu and Ö. Özer

Stochastics and Statistics

- 1350 A simple model of deferred callability in defaultable debt
A. Mjøs and S.-A. Persson
- 1358 Pricing caps with HJM models: The benefits of humped volatility
J. Falini
- 1368 Valuing executive stock options: A quadratic approximation
T. Kimura
- 1380 The cross-entropy method with patching for rare-event simulation of large Markov chains
B. Kaynar and A. Ridder
- 1398 Stochastic lot-sizing problem with inventory-bounds and constant order-capacities
Y. Guan and T. Liu
- 1410 A single-shot game of multi-period inspection
R. Hohzaki and H. Maehara
- 1419 A two-player competitive discrete location model with simultaneous decisions
P. Godinho and J. Dias
- 1433 On some optimisation models in a fuzzy-stochastic environment
M.K. Luhandjula and J.W. Joubert
- 1442 Mean time to failure and availability of semi-Markov missions with maximal repair
B. Çekyay and S. Özekici

Decision Support

- 1455 Multiple criteria sorting with a set of additive value functions
S. Greco, V. Mousseau and R. Slowiński
- 1471 The effects of demand uncertainty on channel structure
W. Cao, B. Jiang and D. Zhou
- 1489 An aggregate label setting policy for the multi-objective shortest path problem
M. Iori, S. Martello and D. Pretolani
- 1497 Stability and accuracy functions for a multicriteria Boolean linear programming problem with parameterized principle of optimality "from Condorcet to Pareto"
Y. Nikulin and M.M. Mäkelä
- 1506 Integrated bank performance assessment and management planning using hybrid minimax reference point – DEA approach
J.B. Yang, B.Y.H. Wong, D.L. Xu, X.B. Liu and R.E. Steuer
- 1519 Approximating the Pareto optimal set using a reduced set of objective functions
P. Lindroth, M. Patriksson and A.-B. Strömberg
- 1535 Swedish employment offices: A new model for evaluating effectiveness
R. Althin, L. Behrenz, R. Färe, S. Grosskopf and E. Mellander
- 1545 Analytic hierarchy based policy design method (AHPo) for solving societal problems that require a multifaceted approach
Y. Nakagawa, S. Nasu, T. Saito and N. Yamaguchi
- 1554 An epsilon-based measure of efficiency in DEA – A third pole of technical efficiency
K. Tone and M. Tsutsui
- 1564 On the choice of weights profiles in cross-efficiency evaluations
N. Ramón, J.L. Ruiz and I. Sirvent
- 1573 COOPER-framework: A unified process for non-parametric projects
A. Emrouznejad and K. De Witte

Innovative Applications of O.R.

- 1587 Determinants of bank efficiency: The case of Brazil
P.L. Teclès and B.M. Tabak

Contents continued on previous page

(Contents continued from next page)

- 1599 Performance appraisal based on distance function methods
R. de Andrés, J.L. García-Lapresta and J. González-Pachón
- 1608 A stochastic programming model for scheduling call centers with global Service Level Agreements
T.R. Robbins and T.P. Harrison
- 1620 Integrated risk management for an electricity producer
P. Falbo, D. Felletti and S. Stefani
- 1628 Hospital capacity, capability, and emergency preparedness
V. Valdmanis, P. Bernet and J. Moises
- 1635 A knowledge based approach to loss severity assessment in financial institutions using Bayesian networks and loss determinants
D. Häger and L.B. Andersen
- 1645 A statistical Markov chain approximation of transient hospital inpatient inventory
J.R. Broyles, J.K. Cochran and D.C. Montgomery
- 1658 Pricing peer-produced services: Quality, capacity, and competition issues
Y.-M. Li and Y.-L. Lee
- 1669 Input/output selection in DEA under expert information, with application to financial markets
N.C.P. Edirisinghe and X. Zhang
- 1679 Stochastic DEA with ordinal data applied to a multi-attribute pricing problem
D. (Dash) Wu and C.-G. Lee
- 1689 Strategic investment timing under asymmetric access charge regulation in telecommunications
T. Shibata and H. Yamazaki
- 1702 Pairs trading and outranking: The multi-step-ahead forecasting case
N. Huck
- 1717 Investment using evolutionary learning methods and technical rules
M. Kaucic
- 1728 Development of the parametric tolerance modeling and optimization schemes and cost-effective solutions
S. Shin, P. Kongsuwon and B.R. Cho
- 1742 Measurement of a linkage among environmental, operational, and financial performance in Japanese manufacturing firms: A use of Data Envelopment Analysis with strong complementary slackness condition
T. Sueyoshi and M. Goto
