

CONTENTS

Invited Review

- 629 Robustness in operational research and decision aiding: A multi-faceted issue
B. Roy

Continuous Optimization

- 639 Pseudo-Lipschitz property of linear semi-infinite vector optimization problems
T.D. Chuong, N.Q. Huy and J.C. Yao
- 645 Sequential quadratically constrained quadratic programming norm-relaxed algorithm of strongly sub-feasible directions
J.-B. Jian, C.-M. Tang and H.-Y. Zheng
- 658 A linear programming-based optimization algorithm for solving nonlinear programming problems
C. Still and T. Westerlund
- 671 Inverse optimization for linearly constrained convex separable programming problems
J. Zhang and C. Xu

Discrete Optimization

- 680 Minmax regret approach and optimality evaluation in combinatorial optimization problems with interval and fuzzy weights
A. Kasperski and P. Zielinski
- 688 ABSALOM: Balancing assembly lines with assignment restrictions
A. Scholl, M. Fliedner and N. Boysen
- 702 Scheduling parallel machines with inclusive processing set restrictions and job release times
C.-L. Li and X. Wang

Production, Manufacturing and Logistics

- 711 The pickup and delivery problem with transfers: Formulation and a branch-and-cut solution method
C.E. Cortés, M. Matamala and C. Contardo
- 725 An inventory model with unidirectional lateral transshipments
F. Olsson
- 733 Real-time control of freight forwarder transportation networks by integrating multimodal transport chains
S. Bock
- 747 GRASP heuristic with path-relinking for the multi-plant capacitated lot sizing problem
M.C.V. Nascimento, M.G.C. Resende and F.M.B. Toledo
- 755 Using a TSP heuristic for routing order pickers in warehouses
C. Theys, O. Bräysy, W. Dullaert and B. Raa
- 764 Mathematical models for selection of optimal place and size of connections considering the time-value of money
A. Rastpour and M.S. Esfahani

Stochastics and Statistics

- 774 Fuzzy multi-objective programming for supplier selection and risk modeling: A possibility approach
D.D. Wu, Y. Zhang, D. Wu and D.L. Olson
- 788 Deposit games with reinvestment
G. van Gulick, P. Borm, A. De Waegenaere and R. Hendrickx
- 800 A Markov model for single-leg air cargo revenue management under a bid-price policy
D.L. Han, L.C. Tang and H.C. Huang

Innovative Applications of O.R.

- 812 A multicriteria model for risk sorting of natural gas pipelines based on ELECTRE TRI integrating Utility Theory
A.J. Brito, A.T. de Almeida and C.M.M. Mota
- 822 Optimizing daily agent scheduling in a multiskill call center
A.N. Avramidis, W. Chan, M. Gendreau, P. L'Ecuyer and O. Pisacane

Continued on last page of this issue

Instructions for Authors

For the submission of papers to the European Journal of Operational Research please consult the Guide for Authors at <http://authors.elsevier.com/locate/ejor>.

Contents continued from the outside back cover

- 833 Multiattribute utility analysis for policy selection and financing for the preservation of the forest
T. Hayashida, I. Nishizaki and Y. Ueda
- 844 A problem-structuring model for analyzing transportation–environment relationships
F. Ülengin, Ö. Kabak, Ş. Önsel, B. Ülengin and E. Aktaş
- 860 A flexible MILP model for multiple-shift workforce planning under annualized hours
A. Hertz, N. Lahrichi and M. Widmer
- 874 Computing latest starting times of activities in interval-valued networks with minimal time lags
S.H. Yakhchali and S.H. Ghodssypour
- 881 Heuristics for container loading of furniture
J. Egeblad, C. Garavelli, S. Lisi and D. Pisinger

Interfaces with Other Disciplines

- 893 Gains from diversification on convex combinations: A majorization and stochastic dominance approach
M. Egozcue and W.-K. Wong
- 901 Variations on the theme of slacks-based measure of efficiency in DEA
K. Tone
- 908 Using copulas to model repeat purchase behaviour – An exploratory analysis via a case study
N. Meade and T. Islam

Short Communications

- 918 The newsvendor problem under multiplicative background risk
B. Sévi
- 924 A note on “Monte Carlo analysis of convertible bonds with reset clause”
J. Yang, Y. Choi, S. Li and J. Yu
- 926 A note on the effects of downstream efficiency on upstream pricing
C. Koulamas and G.J. Kyparisis
