

Volume 204, Issue 3, 1 August 2010

CONTENTS

Invited Review

- 377 Mathematical programming models for supply chain production and transport planning
J. Mula, D. Peidro, M. Díaz-Madroñero and E. Vicens

Continuous Optimization

- 391 Solving a class of constrained 'black-box' inverse variational inequalities
B. He, X.-Z. He and H.X. Liu
- 402 On multiobjective second order symmetric duality with cone constraints
I. Ahmad and Z. Husain
- 410 Accelerated scaled memoryless BFGS preconditioned conjugate gradient algorithm for unconstrained optimization
N. Andrei

Production, Manufacturing and Logistics

- 421 Optimal policies for inventory systems with finite capacity and partially observed Markov-modulated demand and supply processes
K. Arifoğlu and S. Özekici
- 439 Interrelating operational and financial performance measurements in inventory control
M. Protopappa-Sieke and R.W. Seifert
- 449 Commitment-penalty contracts in drop-shipping supply chains with asymmetric demand information
X. Gan, S.P. Sethi and J. Zhou
- 463 Extensions to STaTS for practical applications of the facility layout problem
D. Scholz, F. Jaehn and A. Junker
- 473 Vendor managed inventory model for single-vendor multi-retailer supply chains
M.A. Darwish and O.M. Odah

Stochastics and Statistics

- 485 The reliability importance of components and prime implicants in coherent and non-coherent systems including total-order interactions
E. Borgonovo
- 496 Inequalities for the ruin probability in a controlled discrete-time risk process
M. Diasparra and R. Romera
- 505 List pricing versus dynamic pricing: Impact on the revenue risk
M. Koenig and J. Meissner
- 513 From differential to difference importance measures for Markov reliability models
P. Do Van, A. Barros and C. Bérenguer
- 522 The selectope for bicooperative games
J.M. Bilbao, N. Jiménez and J.J. López

Decision Support

- 533 Evolutionary optimisation of noisy multi-objective problems using confidence-based dynamic resampling
A. Syberfeldt, A. Ng, R.I. John and P. Moore
- 545 A mesh adaptive direct search algorithm for multiobjective optimization
C. Audet, G. Savard and W. Zghal
- 557 Modified interactive Chebyshev algorithm (MICA) for convex multiobjective programming
M. Luque, F. Ruiz and R.E. Steuer
- 565 ELECTRE TRI-C: A multiple criteria sorting method based on characteristic reference actions
J. Almeida-Dias, J.R. Figueira and B. Roy

Continued on last page of this issue

Instructions for Authors

For the submission of papers to the European Journal of Operational Research please consult the Guide for Authors at <http://authors.elsevier.com/locate/ejor>.

Contents continued from the outside back cover

- 581 Large-scale MV efficient frontier computation via a procedure of parametric quadratic programming
M. Hirschberger, Y. Qi and R.E. Steuer
- 589 Optimal fences and joint price and inventory decisions in distinct markets with demand leakage
M. Zhang, P.C. Bell, G.(G.) Cai and X. Chen

Innovative Applications of O.R.

- 597 Modeling latent sources in call center arrival data
J. Landon, F. Ruggeri, R. Soyer and M. Murat Tarimcilar
- 604 A branch-and-cut algorithm for the strong minimum energy topology in wireless sensor networks
Y.P. Aneja, R. Chandrasekaran, X. Li and K.P.K. Nair
- 613 An investigation into the relationship between size and efficiency of the Italian hospitality sector: A window DEA approach
M. Pulina, C. Detotto and A. Paba
- 621 Decision support for centralizing cargo at a Moroccan airport hub using stochastic multicriteria acceptability analysis
A. Menou, A. Benallou, R. Lahdelma and P. Salminen
- 630 Incomplete information, learning, and natural resource management
N. Quérou and M. Tidball
- 639 Sustainable vegetable crop supply problem
L.M.R. dos Santos, A.M. Costa, M.N. Arenales and R.H.S. Santos

Interfaces with Other Disciplines

- 648 Advertising strategies for new product diffusion in emerging markets: Propositions and analysis
S. Swami and A. Dutta
- 662 Dynamic pricing when consumers are strategic: Analysis of posted and contingent pricing schemes
S. Dasu and C. Tong
- 672 An alternative approach to monetary aggregation in DEA
B.K. Sahoo and D. Acharya

Short Communications

- 683 Some comments on the economic lot size of a three-stage supply chain with backordering derived without derivatives
K.-J. Chung
- 690 A note on the properties of the optimal solution(s) of the Greed and Regret problem
A. Sheopuri and E. Zemel
- 694 A slacks-based measure of super-efficiency in data envelopment analysis: A comment
J. Du, L. Liang and J. Zhu

Book Review

- 698 Decision behaviour, analysis and support, Simon French, John Maule, Nadia Papamichail. Cambridge University Press (2009). 472 pp., £34.99
A. Morton
