Chemical Engineering and Processing: Process Intensification

journal homepage: www.elsevier.com/locate/cep

Contents

Research Articles

- Zeolite nanocrystals prepared from zeolite microparticles by a centrifugation-assisted grinding method 809
C. Kong, T. Tsuru (Higashi-Hiroshima, Japan)
- Wet air oxidation of polyether solutions 815
W. Tang, X. Zeng, Q. Wang, P. Li (Shanghai, China)
- Gas-side mass transfer coefficients in a falling film microreactor 820
P. Sobieszuk, R. Pohorecki (Warsaw, Poland)
- Design and optimization of a dividing wall column for debottlenecking of the acetic acid purification process 825
N. Van Duc Long, S. Lee, M. Lee (Kyongsan, South Korea)
- Effect of process conditions on particle growth for spouted bed coating of urea 836
G.S. da Rosa, S.C. dos Santos Rocha (Campinas, Brazil)
- An engineering model of a gas bubble–liquid turbulent flow in coiled tubing wound on a reel 843
D. Eskin (Edmonton, Canada)
- Interfacial area and mass transfer in carbon dioxide absorption in TEA aqueous solutions in a bubble column reactor 852
M.D.L. Rubia (Jaén, Spain), A. García-Abuín, D. Gómez-Díaz, J.M. Navaza (Santiago de Compostela, Spain)
- Flue gas desulfurization by FeSO_4 solutions and coagulation performance of the polymeric ferric sulfate by-product 859
Y. Zhang, S. Guo, J. Zhou, C. Li, G. Wang (Dalian, China)
- Supercritical extraction of grape seed oil at industrial-scale: Plant and process design, modeling, economic feasibility 866
L. Fiori (Trento, Italy)
- Catalytic cracking of rapeseed oil to high octane gasoline and olefins 873
P. Bielansky, A. Reichhold, C. Schönberger (Vienna, Austria)

Short Communication

- A modification of the *Pr* value equation for measuring the compactibility of pharmaceutical materials 881
I. Ilič (Ljubljana, Slovenia), P. Kása Jr. (Szeged, Hungary), R. Dreu (Ljubljana, Slovenia), K. Pintye-Hódi (Szeged, Hungary), S. Srčič (Ljubljana, Slovenia)

The publisher encourages the submission of articles using the journal online submission system: <http://ees.elsevier.com/cep>
