THIS WEEK

EDITORIALS

261 CLIMATE CHANGE

The clean, green science machine
Curtailing travel is one of many small ways to help reduce emissions

261 MENTAL HEALTH

Hollow humour
Obsessive-compulsive disorder is no laughing matter

262 RESEARCH

Strike a chord
Forget love, music is the food of science

WORLD VIEW

263 Share the risks of Ebola vaccine development
Seth Berkley
Governments and industry should help offset the lack of commercial appeal

RESEARCH HIGHLIGHTS

264 SELECTIONS FROM THE SCIENTIFIC LITERATURE

Arctic methane release / Nerve-tingling nanoparticles / Flowers pick pollinators / Liquid metal motor / Viral science not all good / MOF defeats warfare agent / Chameleons' colour chart

SEVEN DAYS

266 THE NEWS IN BRIEF

Cyclone Pam devastates Vanuatu / CO₂ emissions stall / World's marine species get catalogued / 23andMe moves into drug-making

CAREERS

379 CHEMISTRY

Green refill
Legal limits on pollution and carbon emissions mean that many businesses are in need of green chemists

NEWS IN FOCUS

269 POLICY

US scientists score access to stronger varieties of marijuana

270 ASTRONOMY

Canadian government faces tough decision on Thirty Meter Telescope

272 GENETICS

Disagreement over ethics of gene-editing in human embryos

273 FUNDING

Irish researchers lament lack of support for basic science

274 SPACE

From Venus to Io — five places NASA should consider visiting

FEATURES

HEALTH

The myopia boom

The science behind the rapid rise in short-sightedness **PAGE 276**

280 FISHERIES

Eyes on the ocean
Daniel Pauly is sounding the alarm over global fish harvests

COMMENT

AGRICULTURE

Save water in Africa

Dry spells must be bridged by storing rainwater and retaining soil moisture, say Johan Rockström & Malin Falkenmark **PAGE 283**

286 LEADERSHIP

Ten tips for choosing an academic chair

Pierre-Alain Clavier & Joseph Deiss
Seek leaders with fire in their belly — and then support them

BOOKS & ARTS

288 PLANT SCIENCES

Seeds and civilizations
Sandra Knapp

289 THEATRE

Performing rituals
Emily A Holmes

290 SCIENTIFIC ETHICS

Science under the political steamroller
Roger Pielke Jr

CORRESPONDENCE

291 European Spallation Source progress / Urban observations / Down with rainbow graphics / Histology uncropped / More than two sexes

OBITUARY

292 **Charles H Townes (1915–2015)**
Robert Boyd

FUTURES

382 **Perfection**
John Frizell

Watson-Crick-like mispairs in DNA and RNA duplexes

ON THE COVER

Britain's genes

Genetic analysis of more than 2,000 individuals from different locations across Britain reveals striking fine-scale patterns of population structure. Comparisons with data from the European continent uncover a legacy of earlier migrations and information about the ancestry of today's populations in specific geographic regions.
