13 June 2013 / Vol 498 / Issue No 7453

THIS WEEK

EDITORIALS

137 MENTAL HEALTH

No dishonour in depression

It is time to remove the stigma attached to mental illness

137 DATA PRIVACY

Track the trackers

An open debate is needed to establish our right to privacy

138 AWARDS

Young upstarts

Cash-rich prizes for scientific endeavours aren't all bad

WORLD VIEW

139 Be prepared for the big genome leak

Steven E Brenner

It is only a matter of time before data confidentiality gets breached

RESEARCH HIGHLIGHTS

140 SELECTIONS FROM THE SCIENTIFIC LITERATURE

Reindeer make the weather / Beak versus penis / Harnessing immunity against cancer / Dual-identity polymers / Dusty road to planets / Tomato with a hint of potato

SEVEN DAYS

142 THE NEWS IN BRIEF

Greenhouse-gas emissions fall in Brazil / AstraZeneca drops rheumatoid arthritis drug / Landsat 8 data go public / Max Planck Society gets new head

CAREERS

261 ECOLOGY

Conservation in captivity

Zoos can both educate the public and preserve biodiversity

263 CAREER BRIEFS

NEWS IN FOCUS

145

CLIMATE CHANGE

China launches cap-and-trade initiatives in bid to curb CO₂ emissions

146

PERSONALIZED MEDICINE

Genetic matching aims to speed up cancer drug trials

147 GASTROENTEROLOGY

FDA takes control of faecal transplants

149 PHOTONICS

Light switches edge closer to transistors

150 ZOOLOGY

Tracking device reveals supreme agility of cheetahs

151 FUNDING

UK minister tries to allay fears over science spending

FEATURES

152 AWARDS

The new Nobels

Scientific mega-prizes are threatening to change the award landscape

DRONES

Eyes in the sky

Unmanned aircraft are taking off in scientific research **PAGE 156**

TECHNOLOGY

255 BIG DATA

The big challenges of big data

The world is full of biological information just waiting to be analysed

COMMENT

159 REGENERATIVE MEDICINE

Stem-cell researchers must stay engaged

Martin Pera & Alan Trounson

This is no time for complacency, there are more controversies to come

161 OBSERVATORIES

Time for an Arab astronomy renaissance

Nidhal Guessoum

New instruments, courses and conferences needed to boost the field in the Middle East

ENVIRONMENT

Wild words

Robert Macfarlane assesses the resurgence in nature writing **PAGE 166**

BOOKS & ARTS

168 TECHNOLOGY

Built by bicycle

Andrew Robinson

169 ETHOLOGY

Primatological derring-do

Kelly Stewart

CORRESPONDENCE

170 Brazilian forest threatened / Nature's checklist / End food waste / Science for all / Gender equality in Australia / GM salmon in Europe

FUTURES

266 Mortar flowers

Jessica May Lin

CONTENTS

13 June 2013 / Vol 498 / Issue No 7453

RESEARCH

NEW ONLINE

173 Papers published this week at nature.com

NEWS & VIEWS

174 STEM CELLS

Cloning human embryos

Implications of generating human embryonic stem cells by SCNT
*Christine L Mummery
& Bernard A J Roelen*

175 CONDENSED-MATTER PHYSICS

Spintronics, the atomic way

The atomic analogue of the spin transistor
Peter van der Straten **SEE LETTER P.201**

176 STEM CELLS

Regulation by alternative splicing

MBNL proteins suppress pluripotency
Yair Aaronson & Eran Meshorer
SEE LETTER P.241

177 MALARIA

The vector as protector

Parasites transmitted by mosquito induce an attenuated infection phenotype
Andrew F Read & Nicole Mideo
SEE LETTER P.228

179 COSMOLOGY

Hydrogen wisps reveal dark energy

Measuring cosmic expansion from a time before the epoch of acceleration began
Tamara M Davis

180 CONSERVATION

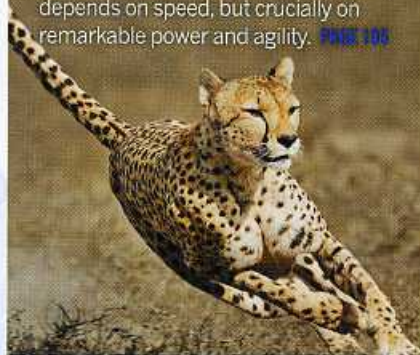

Spare our restored soil

The effects of using reclaimed grasslands for agriculture
Johan Six

ON THE COVER

Top cat

A team from the Royal Veterinary College, UK, working with the Botswana Predator Conservation Trust, used GPS-enabled tracking collars to record the hunting runs of wild cheetahs. Success in the chase depends on speed, but crucially on remarkable power and agility. **PAGE 185**

181 EARTH SCIENCE

Water may be a damp squib

The role of water on the rheological properties of the upper mantle
John Brodholt **SEE LETTER P.213**

182 STRUCTURAL BIOLOGY

Ion channel twists to open

Structure of mammalian GIRK2 channel in complex with $\beta\gamma$ G-protein subunits
Eitan Reuveny **SEE ARTICLE P.190**

ARTICLES

185 BIOMECHANICS Locomotion dynamics of hunting in wild cheetahs

A M Wilson et al.

190 STRUCTURAL BIOLOGY X-ray structure of the mammalian GIRK2- $\beta\gamma$ G-protein complex

M R Whorton & R MacKinnon
SEE N&V P.182

LETTERS

198 ASTRONOMY Sodium content as a predictor of the advanced evolution of globular cluster stars

S W Campbell et al.

201 PHYSICS The spin Hall effect in a quantum gas

M C Beeler et al. **SEE N&V P.175**

205 APPLIED PHYSICS A temporal cloak at telecommunication data rate

J M Lukens, D E Leaird & A M Weiner

209 PHYSICS Heat dissipation in atomic-scale junctions

W Lee et al.

213 GEOPHYSICS Small effect of water on upper-mantle rheology based on silicon self-diffusion coefficients

H Fei, M Wiedenbeck, D Yamazaki & T Katsura **SEE N&V P.181**

216 EVOLUTION Barium distributions in teeth reveal early-life dietary transitions in primates

C Austin et al.

220 GENETICS De novo mutations in histone-modifying genes in congenital heart disease

S Zaidi et al.

224 IMMUNOLOGY RIP1-driven autoinflammation targets IL-1 α independently of inflammasomes and RIP3

J R Lukens et al.

228 PARASITOLOGY Vector transmission regulates immune control of *Plasmodium* virulence

P J Spence et al. **SEE N&V P.177**

232 GENETICS Negligible impact of rare autoimmune-locus coding-region variants on missing heritability

K A Hunt et al.

236 GENOMIC ANALYSIS Single-cell transcriptomics reveals bimodality in expression and splicing in immune cells

A K Shalek et al.

241 MOLECULAR BIOLOGY MBNL proteins repress ES-cell-specific alternative splicing and reprogramming

H Han et al.

246 MOLECULAR BIOLOGY The bromodomain protein Brd4 insulates chromatin from DNA damage signalling

S R Floyd et al.

251 CELL BIOLOGY Chromosome-specific nonrandom sister chromatid segregation during stem-cell division

S Yadlapalli & Y M Yamashita

EVOLUTION

Milk teeth

The Ba/Ca ratio in tooth enamel as a marker of lactation in humans. **PAGE 216**
