## THIS WEEK

### EDITORIALS

- 5 **DISEASE RESPONSE**  
**Health plan**  
Investment must incorporate long-term research and health-care systems
- 6 **PUBLIC RELATIONS**  
**Misplaced faith**  
Scientists should work to ensure that the public's trust is well founded
- 6 **SPACE**  
**To Pluto**  
New Horizons mission renews interest in far corner of Solar System

### WORLD VIEW

- 7 **Take concepts of chemistry out of the classroom**  
*Chiara Ceci*  
Scientists should not underestimate the public's understanding and interest

### RESEARCH HIGHLIGHTS

- 8 **SELECTIONS FROM THE SCIENTIFIC LITERATURE**  
Gene therapy for diabetes / Red Sea upheaval / New shape memory alloy / Learn from harsh reviews / Bird migration mutes colours / Algal intruders in corals

### SEVEN DAYS

- 10 **THE NEWS IN BRIEF**  
Rosetta snaps shots of comet's heart / Japan to restart nuclear reactor / Shaw prizes announced / Basic research protected from budget raid

## CAREERS

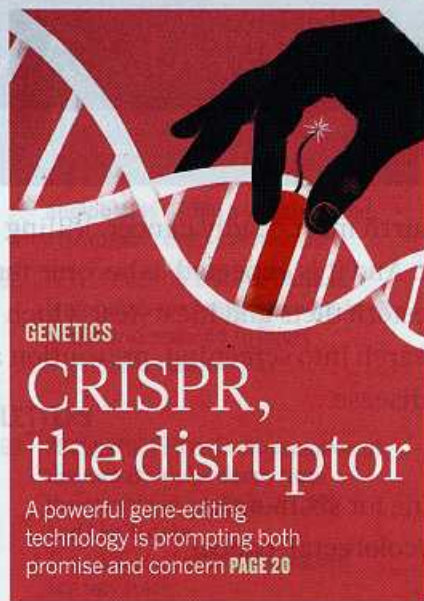

- 117 **RESEARCH CONTINUITY**  
**Be prepared**  
The unexpected loss of a principal investigator can be a character-building experience for those that remain
- 119 **TRADE TALK**  
**Quality wrangler**  
Chemical biologist Leslie Cruz found that the paperwork associated with lab research was key to a rewarding career

### NATUREJOBS ADVERTISING FEATURE

Spotlight on genetics

## NEWS IN FOCUS

- 13 **PLANT DISEASE**  
Italian police probe scientists' role in olive-grove die-offs
- 14 **POLITICAL SCIENCE**  
Flawed gay-marriage study debated at conference on research ethics
- 15 **ASTRONOMY**  
Hawaii to dismantle some observatories on sacred mountain
- 16 **PHYSICS**  
Hyper-precise atomic clocks are put to the test
- 18 **PUBLIC HEALTH**  
Bigger role mooted for Médecins Sans Frontières in wake of Ebola epidemic

### FEATURES

- 26 **BUSINESS**  
**The billion-dollar biotech**  
The journey of Moderna Therapeutics from start-up to RNA-drug power player

### TOOLBOX

- 115 **LABORATORY COMPUTING**  
**How to catch a cloud**  
Cloud computing — often from the likes of Amazon, Google and Microsoft — is a popular choice for today's researchers

## COMMENT

- 29 **CLINICAL DIAGNOSIS**  
**Prepare for unexpected prenatal test results**  
*Diana W Bianchi*  
Women should be told that fetal screening could illuminate their own health problems

### BOOKS & ARTS

### Q&A

## Dinosaur doctor

There's as much future as past in *Jurassic World* says the film's consultant palaeontologist Jack Horner. **PAGE 32**

- 31 **EVOLUTIONARY BIOLOGY**  
**Paeon to a founder of heredity**  
*Jane Maienschein*
- 33 **BOOKS IN BRIEF**

### CORRESPONDENCE

- 34 New horizons for Ukraine / Fracking in earthquake-prone China / Bird DNA sequences accumulating / Sharing BRCA data

### FUTURES

- 122 **Let's have a talk**  
*Xia Jia*

# CONTENTS

4 June 2015 / Vol 522 / Issue No 7554

## RESEARCH

### NEW ONLINE

35 Papers published this week at nature.com

### NEWS & VIEWS

#### 36 MICROBIOLOGY

##### Exclusive networks in the sea

Specific nutrient and signal exchange between a diatom and a bacterium  
*Alexander J Limardo & Alexandra Z Worden* **SEE LETTER P.98**

#### 37 DEVELOPMENTAL BIOLOGY

##### Diversity in the lymphatic vasculature

Unexpected sources of precursor cells for lymphatic vessels

*Benjamin M Hogan & Brian L Black*  
**SEE ARTICLES P.56 & P.62**

#### 38 CANCER

##### Precise control of localized signals

The tumour-suppressor PTEN is tethered to cytoplasmic endosomes  
*Vuk Stambolic*

#### 40 ASTRONOMY

##### Pluto leads the way in planet formation

The Hubble Space Telescope casts light on Pluto's small satellites  
*Scott J Kenyon* **SEE ARTICLE P.45**

#### 41 CANCER

##### Opening LOX to metastasis

Tumour-secreted lysyl oxidase creates a pre-metastatic niche in bones  
*Neta Erez* **SEE LETTER P.106**

#### 42 HIGH-ENERGY PHYSICS

##### Proton smasher spots rare particle decays

Analysis of the decays of neutral B mesons  
*Daria Zieminska* **SEE LETTER P.68**

### ARTICLES

#### 45 PLANETARY SCIENCE Resonant interactions and chaotic rotation of Pluto's small moons

*M R Showalter & D P Hamilton*  
**SEE N&V P.40**

#### 50 NEUROSCIENCE A prefrontal-thalamo-hippocampal circuit for goal-directed spatial navigation

*H T Ito, S-J Zhang, M P Witter, E I Moser & M-B Moser*

#### 56 DEVELOPMENTAL BIOLOGY Lymphatic vessels arise from specialized

### ON THE COVER

## Gearing up for the fly-by

An illustration of behind-the-scenes mechanisms in the Pluto system: 'gear ratios' are such that the observed orbital ratios of 1:3:4:5:6 are enforced. With NASA's New Horizons probe fast approaching Pluto, Mark Showalter and Douglas Hamilton present new results from the Pluto system and predict what the spacecraft might observe. **PAGES 40 & 45**

angioblasts within a venous niche  
*J Nicenboim et al.* **SEE N&V P.37**

#### 62 DEVELOPMENTAL BIOLOGY Cardiac lymphatics are heterogeneous in origin and respond to injury

*L Klotz et al.* **SEE N&V P.37**

### LETTERS

#### 68 HIGH-ENERGY PHYSICS Observation of the rare $B_c^0 \rightarrow \mu^+ \mu^-$ decay from the combined analysis of CMS and LHCb data

*The CMS and LHCb collaborations*  
**SEE N&V P.42**

#### 73 GEOPHYSICS Greenland supraglacial lake drainages triggered by hydrologically induced basal slip

*L A Stevens et al.*

#### 77 PALAEOONTOLOGY Anomalocaridid trunk limb homology revealed by a giant filter-feeder with paired flaps

*P Van Roy, A C Daley & D E G Briggs*

#### 81 PALAEOONTOLOGY Ancient proteins resolve the evolutionary history of Darwin's South American ungulates

*F Welker et al.*

#### 85 PALAEOANTHROPOLOGY New cosmogenic burial ages for Sterkfontein Member 2 *Australopithecus* and Member 5 Oldowan

*D E Granger et al.*

#### 89 NEUROSCIENCE Disruption of DNA-methylation-dependent long gene repression in Rett syndrome

*H W Gabel et al.*

#### 94 STEM CELLS Niche-induced cell death and epithelial phagocytosis regulate hair follicle stem cell pool

*K R Mesa et al.*

#### 98 BIOOCEANOGRAPHY Interaction and signalling between a cosmopolitan phytoplankton and associated bacteria

*S A Amin et al.* **SEE N&V P.36**

#### 102 VIROLOGY Dissemination, divergence and establishment of H7N9 influenza viruses in China

*T T-Y Lam et al.*

#### 106 CANCER The hypoxic cancer secretome induces pre-metastatic bone lesions through lysyl oxidase

*T R Cox et al.* **SEE N&V P.41**

#### 111 MOLECULAR BIOLOGY eIF3 targets cell-proliferation messenger RNAs for translational activation or repression

*A S Y Lee, P J Kranzusch & J H D Cate*

### PALAEOONTOLOGY

## Filter paper

This 2-metre-long filter feeder takes Burgess Shales Cambrian weirdness well into the earlier Ordovician. **PAGE 77**
