## BEYOND THE BOMB

### EDITORIAL

#### 369 Beyond the bomb

The cold war may be long over but scientists and the military still need each other

### NEWS

#### 380 BIODEFENCE

Pentagon changes tack after bid to develop drugs and vaccines falls short

### FEATURES

#### 386 The changing face of military science

Uncertain time ahead for basic research that relies on the Pentagon for funding

#### 388 Shared intelligence

Getting to grips with the vast array of scientifically useful military data

#### 390 The brain war

The hidden effects of explosions

### COMMENT

#### 395 Joining forces

David L Blazes & Kevin L Russell  
Civilians and the military should work together to tackle global diseases

**BEYOND THE BOMB**  
Science and the military  
[nature.com/military](http://nature.com/military)

#### 397 The world's most independent defence science advisers

Ann Finkbeiner  
Take a trip into the shadowy world of JASON

#### 399 A world of killer apps

P W Singer  
Ethical issues raised by technological advances in military hardware must be addressed

### BOOKS & ARTS

#### 406 Q&A: The virtual trainer

Robert Stone explains how 'serious games' can help prepare soldiers for real-life combat

## THIS WEEK

### EDITORIALS

#### 369 HEALTH

**The wrong message on vaccines**  
It is irresponsible for public figures to give misinformation about health

### WORLD VIEW

#### 371 China's new forests aren't as green as they seem

Jianchu Xu  
Forests are not wholly good when they contain the wrong kind of tree

### RESEARCH HIGHLIGHTS

#### 372 SELECTIONS FROM THE SCIENTIFIC LITERATURE

Australian frogs beat the drought / Glowing tumours guide surgery / Heart-attack effects on bone marrow / Online gamers solve protein structures

### SEVEN DAYS

#### 374 THE NEWS IN BRIEF

Funding lifeline for James Webb Telescope / Israel signs up to CERN / Quake strikes Himalayas / Siemens pulls out of nuclear power / Final bids submitted for Square Kilometre Array

## NEWS IN FOCUS

#### 377 STEM CELLS

Texas governor on collision course with FDA over stem-cell treatments

#### 379 PHYSICS

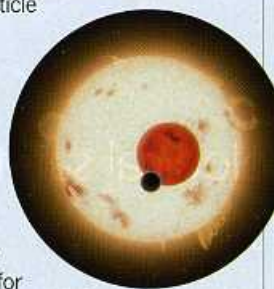

US researchers adjust to loss of Tevatron particle accelerator

#### 383 ASTRONOMY

Astronomers revel in a treasure trove of exoplanets

#### 384 MISCONDUCT

Court enforces return to work for disgraced Austrian researcher

## CAREERS

#### 499 EDUCATION

**Time to teach**  
Young researchers can find teaching both rewarding and educational

#### 501 CAREER BRIEFS

**NATUREJOBS ADVERTISING FEATURE**  
Spotlight on cancer research

## COMMENT

### BOOKS & ARTS

#### 403 ENERGY

**Burning desires**  
Vaclav Smil

#### 404 IN RETROSPECT

**Normal Accidents**  
Nick Pidgeon  
Reflections on disaster recovery

#### 405 BOOKS IN BRIEF

### CORRESPONDENCE

407 Pathology centre has future / Autocracy slowing progress in China / Vital role of review boards / Maintaining integrity

### FUTURES

504 **Every girl dreams of falling in love**  
Shelly Li

## RESEARCH

### NEW ONLINE

409 Papers published this week at nature.com

### NEWS & VIEWS

#### 410 AGEING

##### Forum: Longevity hits a roadblock

The minor role of sirtuin proteins in lifespan extension

David B Lombard, Scott D Pletcher, Carles Cantó & Johan Auwerx

SEE LETTER P.482

#### 412 MATERIALS SCIENCE

##### Slippery when wetted

An omniphobic material inspired by pitcher plants

Michael Nosonovsky SEE LETTER P.443

#### 413 SYNTHETIC BIOLOGY

##### A yeast for all reasons

Re-factoring the baker's yeast genome

Peter J Enyeart & Andrew D Ellington

SEE LETTER P.471

#### 414 QUANTUM PHYSICS

##### Single electrons take the bus

Transfer of single electrons between two distant quantum dots

Takis Kontos SEE LETTERS P.435 & P.439

#### 415 GENOMICS

##### Endless variation most beautiful

A comparison of the genomes of many varieties of *Arabidopsis thaliana*

Michael Bevan SEE ARTICLE P.419

#### 416 VACCINOLOGY

##### Precisely tuned antibodies nab HIV

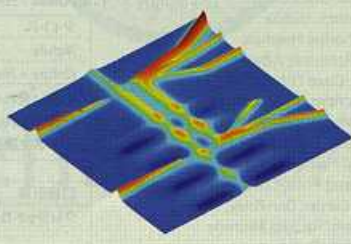

Discovery of broadly neutralizing and highly potent HIV-1 antibodies

Paul R Clapham & Shan Lu SEE LETTER P.466

### PHYSICS

## Sound stuff

Single electrons caught surfing an acoustic wave. PAGE 439

### ARTICLES

#### 419 PLANT GENOMICS Multiple reference

genomes and transcriptomes for *Arabidopsis thaliana*

X Gan et al. SEE N&V P.415

#### 424 IMMUNOLOGY CTCF-binding elements

mediate control of V(D)J recombination

C Guo et al.

### LETTERS

#### 431 ASTRONOMY A close nuclear black-hole

pair in the spiral galaxy NGC 3393

G Fabbiano, J Wang, M Elvis & G Risaliti

#### 435 PHYSICS Electrons surfing on a sound

wave as a platform for quantum optics with flying electrons

S Hermelin et al. SEE N&V P.414

#### 439 PHYSICS On-demand single-electron

transfer between distant quantum dots

R P G McNeil et al. SEE N&V P.414

#### 443 MATERIALS Bioinspired

self-repairing slippery surfaces with pressure-stable omniphobicity

T-S Wong et al. SEE N&V P.412

#### 448 EARTH SCIENCE Widespread

iron-rich conditions in the mid-Proterozoic ocean

N J Planavsky et al.

#### 452 EVOLUTION Phylogenomics reveals

deep molluscan relationships

K M Kocot et al.

#### 457 MICROBIOLOGY Antibiotic resistance

is ancient

V M D'Costa et al.

#### 462 MICROBIOLOGY Evidence for several waves of global transmission in the seventh cholera pandemic

A Mutreja et al.

#### 466 VIROLOGY Broad neutralization coverage of HIV by multiple highly potent antibodies

L M Walker et al. SEE N&V P.416

#### 471 SYNTHETIC BIOLOGY Synthetic chromosome arms function in yeast and generate phenotypic diversity by design

J S Dymond et al. SEE N&V P.413

#### 477 METABOLISM Antidiabetic actions of a non-agonist PPAR $\gamma$ ligand blocking Cdk5-mediated phosphorylation

J H Choi et al.

#### 482 CELL BIOLOGY Absence of effects of Sir2 overexpression on lifespan in *C. elegans* and *Drosophila*

C Burnett et al. SEE N&V P.410

#### 486 STRUCTURAL BIOLOGY Structures of the RNA-guided surveillance complex from a bacterial immune system

B Wiedenheft et al.

#### 490 MOLECULAR BIOLOGY Polyamine sensing by nascent ornithine decarboxylase antizyme stimulates decoding of its mRNA

L Kurian, R Palaninurugan, D Gödderz & R J Dohmen

#### 495 STRUCTURAL BIOLOGY Structural basis of PIP $_2$ activation of the classical inward rectifier K $^+$ channel Kir2.2

S B Hansen, X Tao & R MacKinnon

### STRUCTURAL BIOLOGY

## Phage force

The CASCADE complex that protects bacteria from infection. PAGE 486

### ASTRONOMY

## Twin peek

An active black-hole pair seen in the bulge of a nearby spiral galaxy PAGE 431
