SOUTH AMERICAN SCIENCE

EDITORIAL

- 188 Open goal**
International collaborations can help bolster the continent's ambitions

FEATURES

- 201 Stars of South American science**
Growth in resources and opportunity
- 202 South America by the numbers**
A continent quantified
- 204 Big players**
The leading lights in Latin American research
- 207 Homeward bound**
Repatriation efforts pay off

NATURE.COM
For more on South American science see:
nature.com/southamerica

COMMENT

- 209 Capacity building: Architects of South American science**
Eduardo Arz, Gisella Orjeda, Carlos Nobre, Juan Carlos Castilla, Lino Barañao, Sidarta Ribeiro, Claudio Bitano, Jose Eduardo Krieger, Pablo C Guerrero & Mary T K Arroyo
A continent-wide look at how the region can boost its science base
- 213 Fellowships: Turning brain drain into brain circulation**
Torsten Wiesel & Jimena Sierralta
Successful scholarships provide sound foundation for Latin American science

THIS WEEK

EDITORIALS

- 187 AGRICULTURE**
A growing problem
GM crops are no quick fix for quashing herbicide-resistant weeds
- 187 REGENERATIVE MEDICINE**
Good practice
A systematic approach to stem cells will reap therapeutic benefits

WORLD VIEW

- 189 Jordan's stem-cell law can guide the Middle East**
Rana Dajani
Framework offers legal and ethical guidance for Islamic nations

RESEARCH HIGHLIGHTS

- 190 SELECTIONS FROM THE SCIENTIFIC LITERATURE**
Bee-friendly insecticide / Theia's geology / HIV activated / Plankton light / First author first / As the crow thinks

SEVEN DAYS

- 192 THE NEWS IN BRIEF**
SOFIA telescope saved / Germany pulls out of Square Kilometre Array / NIH sets out BRAIN plan / Illinois bans microbeads

NEWS IN FOCUS

- 195 REGENERATIVE MEDICINE**
Cell-replacement therapies back on the agenda for Parkinson's disease
- 196 SPACE**
US-Russian tensions prompt NASA drive for space-station experiments
- 198 GENETICS**
Public database challenges Myriad over genetic test for breast cancer
- 199 ACOUSTICS**
Undersea signal offers lead in search for missing Malaysian airliner

CAREERS

- 303 COLUMN**
A test that fails
Casey Miller & Keivan Stassun
Many US graduate-school entry tests are not fit for purpose

NATUREJOBS ADVERTISING FEATURE
Spotlight on stem-cell research

nature events directory

Your guide to global scientific events and courses in 2014–2015

COMMENT

BOOKS & ARTS

- 216 ARTS**
The third culture
Michael John Gorman
- 217 Q&A**
The nutrient hunter
Journalist Jo Robinson champions purple foods — wine included

CORRESPONDENCE

- 218 Darwin, Wallace and women / Safe synthetic biology / Joint funding / Otlet first with citation analysis**

FUTURES

- 306 Face in the dark**
Deborah Walker

RESEARCH

NEW ONLINE

219 Papers published this week at nature.com

NEWS & VIEWS

220 MATERIALS SCIENCE

Diamond gets harder

The synthesis of nanotwinned diamond
James Boland [SEE LETTER P.250](#)

221 PLANT BIOLOGY

Pass the ammunition

Herbivory-induced emissions are changed into weapons in nearby plants
Mark C Mescher & Consuelo M De Moraes

222 IMMUNOLOGY

When lymphocytes run out of steam

Familial immunodeficiencies caused by a lack of CTPS1
André Veillette & Dominique Davidson
[SEE LETTER P.288](#)

224 PARTICLE PHYSICS

The hunt for Majorana neutrinos heats up

Searching for the neutrinoless double- β -decay process
David Wark [SEE ARTICLE P.229](#)

225 CANCER BIOLOGY

Enzyme meets a surprise target

A histone modifier acts downstream of oncogenic K-Ras in the cytoplasm
Marian M Deuker & Martin McMahon
[SEE LETTER P.283](#)

226 GENE THERAPY

Repair and replace

An optimized gene-repair protocol for haematopoietic stem cells
Alain Fischer [SEE ARTICLE P.235](#)

ASTROPHYSICS

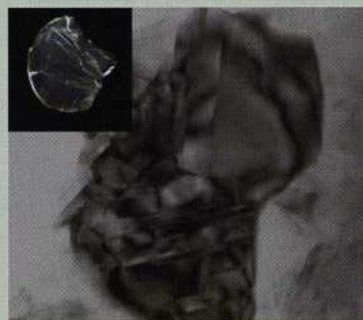

Dust trap

An explanation for the existence of optically dark γ -ray bursters. [PAGE 247](#)

MATERIALS

Hard science

Synthetic diamonds go from strength to strength. [PAGE 250](#)

ARTICLES

229 **PARTICLE PHYSICS** Search for Majorana neutrinos with the first two years of EXO-200 data
The EXO-200 Collaboration
[SEE N&V P.224](#)

235 **IMMUNOLOGY** Targeted genome editing in human repopulating haematopoietic stem cells
P Genovese et al. [SEE N&V P.226](#)

241 **MOLECULAR BIOLOGY** Homologue engagement controls meiotic DNA break number and distribution
D Thacker, N Mohibullah, X Zhu & S Keeney

LETTERS

247 **ASTROPHYSICS** Two γ -ray bursts from dusty regions with little molecular gas
B Hatsukade et al.

250 **MATERIALS** Nanotwinned diamond with unprecedented hardness and stability
Q Huang et al. [SEE N&V P.220](#)

254 **CLIMATE SCIENCE** Increased frequency of extreme Indian Ocean Dipole events due to greenhouse warming
W Cai et al.

259 **ECOLOGY** Elevated CO_2 further lengthens growing season under warming conditions
Melissa Reyes-Fox et al.

263 **NEUROSCIENCE** Emergence of reproducible spatiotemporal activity during motor learning
A J Peters, S X Chen & T Komiyama

268 **STEM CELLS** The unfolded protein response governs integrity of the haematopoietic stem-cell pool during stress
P van Galen et al.

273 **STEM CELLS** Human embryonic-stem-cell-derived cardiomyocytes regenerate non-human primate hearts
J J H Chong et al.

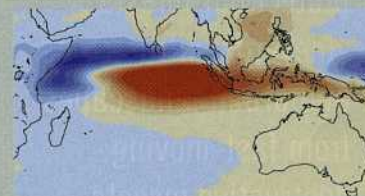

278 **CANCER** Therapeutic targeting of BET bromodomain proteins in castration-resistant prostate cancer
I A Asangani et al.

283 **CANCER** SMYD3 links lysine methylation of MAP3K2 to Ras-driven cancer
P K Mazur et al. [SEE N&V P.225](#)

288 **IMMUNOLOGY** CTP synthase 1 deficiency in humans reveals its central role in lymphocyte proliferation
E Martiñ et al. [SEE N&V P.222](#)

293 **STRUCTURAL BIOLOGY** A Ctf4 trimer couples the CMG helicase to DNA polymerase α in the eukaryotic replisome
A C Simon et al.

298 **BIOCHEMISTRY** Quantitative flux analysis reveals folate-dependent NADPH production
J Fan et al.

CLIMATE SCIENCE

New waves

New projections of future Indian Ocean climate cycles. [PAGE 254](#)
