COVER BY KYLE BEAN

## PEOPLING THE PLANET

### EDITORIAL

6 **Young Americans**
The acrimonious debate over when humans reached the Americas offers a lesson in how not to do science

### FEATURES

23 **Peopling the planet**
The story of ancient human migration has become increasingly complex. *Nature* traces the convoluted route taken by *Homo sapiens*

24 **Eastern odyssey**
People left Africa more than 100,000 years ago. But how far they ventured into Asia is a matter of fierce debate

27 **Date with history**
Tom Higham is shaking up carbon dating — and rewriting Europe's prehistory as a result

30 **Coming to America**
Clovis hunters did not reach America first — but who did?

### COMMENT

33 **What makes a modern human**
*Chris Stringer*
Genetic similarities are the key to defining the true nature of human populations

nature.com/wnlxdl

## THIS WEEK

### EDITORIALS

5 VIROLOGY
**Publishing risky research**
The mutant flu paper offers lessons for science publishers

6 EGYPT
**Quiet please**
Calls for the resignation of the Alexandria library's director are premature

### WORLD VIEW

7 **Mutant flu — the view from the newsroom**
*David Brown*
Reporters require facts if they are to avoid sensationalizing science

### RESEARCH HIGHLIGHTS

8 SELECTIONS FROM THE SCIENTIFIC LITERATURE
Mimicking butterfly wings / Graphene's silicon-based cousin / Small RNAs and memory / How to break down biofilms

### SEVEN DAYS

10 THE NEWS IN BRIEF
Japan clamps down on greenhouse gases / US sets out vision for 'bioeconomy' / Drill ship scores record in bid to probe Japan fault / Fight against measles makes its mark

## NEWS IN FOCUS

13 VIROLOGY
Publication of mutant flu paper finally reveals mutations key to transmissibility

15 MISCONDUCT
Austrian science-integrity agency faces early test

16 PARTICLE PHYSICS
Cuts force US neutrino experiment to rein in its ambitions

17 SECURITY
NASA falls foul of technology-trade rules

19 ENVIRONMENT
Brazil's bid to revise forest code raises concerns among environmentalists

20 HEALTH
Report highlights high death toll of premature births

21 HIGHER EDUCATION
Egypt's plans for science city mired in property dispute

## CAREERS

137 RESEARCH
**Uncovering misconduct**
The whistle-blowers guide to when to speak up

139 CAREER BRIEFS

## COMMENT

### BOOKS & ARTS

HOUGHTON LIB./HARVARD UNIV./MS TYP 55.9 (68)

36 NATURAL HISTORY
**The wilder side of Edward Lear**
*Robert McCracken Peck*

37 BOOKS IN BRIEF

39 EARTH SCIENCE
**How a world came to be**
*Birger Schmitz*

40 Q&A
**Relativistic composer**
Philip Glass explains the thinking behind the new production of *Einstein on the Beach*

### CORRESPONDENCE

41 The prospects for PhDs / Tackling Africa's soil problem / Reproducibility of results

### FUTURES

142 **Loyalty beyond seasons**
*Mohsen H Darabi*

# CONTENTS

3 May 2012 / Vol 485 / Issue No 7396

## RESEARCH

### NEW ONLINE

43 Papers published this week at nature.com

### NEWS & VIEWS

44 SOLAR SYSTEM
**Focus on ancient bombardment**
Ancient asteroid impacts on Earth and the Moon
*Frank T Kyte* SEE LETTERS P.75 & P.78

45 DRUG DISCOVERY
**Time in a bottle**
Drugs targeting circadian rhythms show promise for treating obesity
*Joseph Bass* SEE ARTICLE P.62 & LETTER P.123

46 SOLID-STATE PHYSICS
**Electrons do the split**
Electronic fractionalization in a one-dimensional system
*Ralph Claessen* SEE LETTER P.82

47 TRANSLATIONAL MEDICINE
**Double protection for weakened bones**
The protein semaphorin 3A promotes bone regeneration
*Mone Zaidi & Jameel Iqbal* SEE ARTICLE P.69

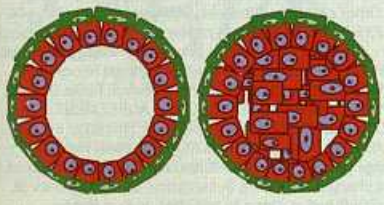
49 INORGANIC CHEMISTRY
**Two-armed silicon**
The synthesis of thermally stable acyclic silylenes
*Robert West*

50 CANCER BIOLOGY
**The director's cut**
Ribosomal profiling characterizes mTOR-controlled protein translation
*Antonio Gentilella & George Thomas*
SEE ARTICLE P.55 & LETTER P.109

CANCER

## Prime cuts

Control of mRNA translation by mTOR signalling via a 5′-end motif. **PAGE 55**



51 EARTH SCIENCE
**Lower mantle may be rich in silica**
Brillouin spectroscopy of the dominant lower-mantle minerals
*Ian Jackson* SEE LETTER P.90

52 PLANETARY SCIENCE
**Mercury's mysteries start to unfold**
Structure of Mercury may be unlike that of any other known planet
*David J Stevenson*

### ARTICLES

55 CANCER **The translational landscape of mTOR signalling steers cancer initiation and metastasis**
*A C Hsieh* et al. SEE N&V P.50

62 DRUG DISCOVERY **Regulation of circadian behaviour and metabolism by synthetic REV-ERB agonists**
*L A Solt* et al. SEE N&V P.45

69 MOLECULAR BIOLOGY **Osteoprotection by semaphorin 3A**
*M Hayashi* et al. SEE N&V P.47

### LETTERS

75 PLANETARY SCIENCES **Impact spherules as a record of an ancient heavy bombardment of Earth**
*B C Johnson & H J Melosh* SEE N&V P.44

78 PLANETARY SCIENCES **An Archaean heavy bombardment from a destabilized extension of the asteroid belt**
*W F Bottke* et al. SEE N&V P.44

82 PHYSICS **Spin–orbital separation in the quasi-one-dimensional Mott insulator $Sr_2CuO_3$**
*J Schlappa* et al. SEE N&V P.46

86 MATERIALS SCIENCE **Liquid-crystal-mediated self-assembly at nanodroplet interfaces**
*J A Moreno-Razo* et al.

90 EARTH SCIENCE **A perovskitic lower mantle inferred from high-pressure, high-temperature sound velocity data**
*M Murakami* et al. SEE N&V P.51

95 EVOLUTION **Evidence of non-random mutation rates suggests an evolutionary risk management strategy**
*I Martincorena* et al.

99 NEUROSCIENCE **Restoration of vision after transplantation of photoreceptors**
*R A Pearson* et al.

104 STEM CELLS **An RNA interference screen uncovers a new molecule in stem cell self-renewal and long-term regeneration**
*T Chen* et al.

109 MOLECULAR BIOLOGY **A unifying model for mTORC1-mediated regulation of mRNA translation**
*C C Thoreen* et al. SEE N&V P.50

114 MICROBIOLOGY **A *Xanthomonas* uridine 5′-monophosphate transferase inhibits plant immune kinases**
*F Feng* et al.

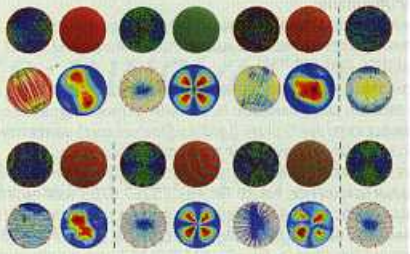
119 PLANT SCIENCES **A novel putative auxin carrier family regulates intracellular auxin homeostasis in plants**
*E Barbez* et al.

123 PHYSIOLOGY **Regulation of circadian behaviour and metabolism by REV-ERB-α and REV-ERB-β**
*H Cho* et al. SEE N&V P.45

128 MEDICAL RESEARCH **Inositol-1,4,5-trisphosphate receptor regulates hepatic gluconeogenesis in fasting and diabetes**
*Y Wang* et al.

133 PHYSIOLOGY **Stereospecific binding of a disordered peptide segment mediates BK channel inactivation**
*V Gonzalez-Perez* et al.

MATERIALS SCIENCE

## New order


Self-assembly in nanodroplets mediated by liquid crystals. **PAGE 86**
