Research Papers

- A unified approach to generalized Stirling functions Tianxiao HE (631)
- Plane graphs with maximum degree 5 are 11-linear-colorable
..... Kan WANG, Weifan WANG (647)
- A nonlinear expression for Fibonacci numbers and its consequences Leetsch C. HSU (654)
- The least eigenvalue of graphs Guidong YU, Yizheng FAN, Yi WANG (659)
- Spectral characterization of generalized cocktail-party graphs
..... Jianfeng WANG, Qiongxian HUANG (666)
- On the congruence $\sigma(n) \equiv 1 \pmod{n}$ Min TANG, Meng LI (673)
- Congruences on Zappa-Szép products of semilattices with an identity and groups
..... Jiangping XIAO, Yonghua LI (677)
- Hyper order of solutions of higher order L. D. E. with coefficients being lacunary series
..... Jin TU, Jie JIANG, Xiumin ZHENG (687)
- Cauchy integral formulae in \mathbb{R}^n Yafang GONG (694)
- Global weakly discontinuous solutions for inhomogeneous quasilinear hyperbolic
systems with characteristics with constant multiplicity Fei GUO (699)
- The second critical exponent for a fast diffusion equation with potential
..... Chunxiao YANG, Jin'ge YANG, Sining ZHENG (715)
- Complete moment convergence for weighted sums of arrays of rowwise NA
random variables Dehua QIU, Pingyan CHEN (723)
- A new algorithm for MLE with interval censored data
..... Conghua CHENG, Jinyuan CHEN (735)
- Gradient estimates for a nonlinear heat equation on compact Riemannian manifold
..... Xinrong JIANG, Caisheng LIAO (743)
- Vol.32, No.1-5 contents (754)
