Research Papers

A characterization of bicyclic signed graphs with nullity $n - 7$ Guojun LI, Aimei YU (1)

Reductions of connected simple r -uniform hypergraphs
..... Sheng BAU, Jirimutu, Changchang YIN (11)

The constructions for large sets and overlarge sets of resolvable Hybrid triple systems
..... Meihui CHENG, Zhifen GUO (19)

The nearest complex polynomial with a prescribed zero Wenyu HU, Zhongxuan LUO (39)

Rings with symmetric endomorphisms and their extensions
..... Yao WANG, Weiliang WANG, Yanli REN (56)

Some properties of subclasses of meromorphic multivalent functions defined by subordination
..... Li-na MA, Huo TANG, Shuhai LI (71)

A note on almost topological groups Xin LIU, Fucui LIN, Chuan LIU (85)

On the fourth power mean of generalized three-term exponential sums
..... Xiancun DU, Xiaoxue LI (92)

On the proximate type of analytic function represented by Laplace-Stieltjes transformation
..... Wanchun LU (97)

Life span of solutions with large initial data for a semilinear parabolic system
..... Sen ZHOU, Zuodong YANG (103)

The commutants of the Toeplitz operators with radial symbols on the pluriharmonic Bergman space
..... Jun YANG (110)
