

Kybernetes

The international journal of cybernetics, systems and management sciences

Number 3

- 355 Access this journal online
- 356 Editorial advisory board
- 357 A comparative study of hybrid machine learning techniques for customer lifetime value prediction
Chih-Fong Tsai, Ya-Han Hu, Chia-Sheng Hung and Yu-Feng Hsu
- 371 Worst-case regret algorithms for selected optimization problems with interval uncertainty
Jerzy Jóźefczyk and Marcin Siepak
- 383 Robustness analysis of urban transit network based on complex networks theory
Zhiyun Zou, Yao Xiao and Jianzhi Gao
- 400 Collocation method for Fredholm and Volterra integral equations
Jalil Rashidinia and Zahra Mahmoodi
- 413 Application of grey linear control theory for price regulation in China's real estate market
Zheng-Xin Wang
- 423 A control model of the software requirements process
Anthony S. White
- 448 Selection of RFID solution provider: a fuzzy multi-criteria decision model with Monte Carlo simulation
Kazim Sari
- 466 Design and optimization of key control characteristics based on improved fruit fly optimization algorithm
Yanfeng Xing
- 482 Multi-objective linear programming with interval coefficients: a fuzzy set based approach
Seyed Hossein Razavi Hajiagha, Hannan Amoozad Mahdiraji and Shide Sadat Hashemi
- 497 Towards compatibility between artificial and psychometric personality models
Faisal L. Kadri
- 506 Keypoint based automatic image orientation and skew investigation on tie points
Cihan Altuntas
