Vol. 36 No. 9 Sept. 2015 (Monthly)

Numerical investigation of turbulent channel flow controlled by spatially oscillating spanwise Lorentz force .....	(1113)
Wentang WU, Yanji HONG, Baochun FAN	
Study on local topology model of low/high streak structures in wall-bounded turbulence by tomographic time-resolved particle image velocimetry .....	(1121)
Haiping TIAN, Nan JIANG, Yongxiang HUANG, Shaoqiong YANG	
Second-order slip MHD flow and heat transfer of nanofluids with thermal radiation and chemical reaction .....	(1131)
Jing ZHU, Liu ZHENG, Liancun ZHENG, Xinxin ZHANG	
Theoretical analyses on hydrodynamic instability in narrow deep river with variable curvature .....	(1147)
Haijue XU, Yuchuan BAI	
Buoyant Marangoni convection of nanofluids in square cavity .....	(1169)
H. SALEH, I. HASHIM	
Revised damage evolution equation for high cycle fatigue life prediction of aluminum alloy LC4 under uniaxial loading .....	(1185)
Zhixin ZHAN, Weiping HU, Miao ZHANG, Qingchun MENG	
$P_1$ -nonconforming triangular finite element method for elliptic and parabolic interface problems .....	(1197)
Hongbo GUAN, Dongyang SHI	
Moving line crack accompanied with damage zone subject to remote tensile loading .....	(1213)
Minwei CHEN, Min LI, Xuesong TANG	
Generalized Bleustein-Gulyaev type waves in layered porous piezoceramic structure .....	(1223)
A. K. VASHISHTH, A. DAHIYA, V. GUPTA	
Experimental research on grouser traction of deep-sea mining machine .....	(1243)
Wenbo MA, Qiuhua RAO, Kang FENG, Feng XU
