

CONTENTS

Commenced in May 1980

Vol. 31 No. 7 Jul. 2010 (Monthly)

- Effect of non-uniform temperature gradient and magnetic field on onset of Marangoni convection heated from below by a constant heat flux (797)
S. P. M. ISA, N. M. ARIFIN, R. NAZAR, M. N. SAAD
- Minimax principle on energy dissipation of incompressible shear flow (805)
Bo CHEN (陈波), Xiao-wei LI (李孝伟), Gao-lian LIU (刘高联)
- General solutions to a class of time fractional partial differential equations (815)
Feng-hui HUANG (黄凤辉), Bo-ling GUO (郭柏灵)
- Simple waves for two-dimensional compressible pseudo-steady Euler system (827)
Geng LAI (赖耕), Wan-cheng SHENG (盛万成)
- Physical criterion study on forward stagnation point heat flux CFD computations at hypersonic speeds (839)
Bang-ming LI (李邦明), Lin BAO (鲍麟), Bing-gang TONG (童秉纲)
- New expression for collision efficiency of spherical nanoparticles in Brownian coagulation (851)
Zhong-li CHEN (陈忠利), Zhen-jiang YOU (游振江)
- A streamline diffusion nonconforming finite element method for the time-dependent linearized Navier-Stokes equations (861)
Yu-mei CHEN (陈豫眉), Xiao-ping XIE (谢小平)
- Phragmén-Lindelöf and continuous dependence type results in a Stokes flow (875)
J. C. SONG
- General analytical solution to bending of composite laminated beams with delaminations (883)
Hai-tao Han (韩海涛), Zheng ZHANG (张铮), Zi-xing LU (卢子兴)
- Elastic-plastic analysis of antiplane crack near crack surface region (895)
Zhi-jian YI (易志坚), Jian-yi GU (谷建义), Xiao-bing HE (何小兵),
Yin-hua MA (马银华), Qing-guo YANG (杨庆国), Kai PENG (彭凯),
Feng HUANG (黄锋), Zong-ming HUANG (黄宗明)
- Some qualitative properties of incompressible hyperelastic spherical membranes under dynamic loads (903)
Xue-gang YUAN (袁学刚), Hong-wu ZHANG (张洪武),
Jiu-sheng REN (任九生), Zheng-you ZHU (朱正佑)
- Group classification for path equation describing minimum drag work and symmetry reductions (911)
M. PAKDEMIRLI, Y. AKSOY
- Quadratic minimization for equilibrium problem variational inclusion and fixed point problem (917)
Shi-sheng ZHANG (张石生), Heung-wing LEE (李向荣), Chi-kin CHAN (陈志坚)
- A new auxiliary equation method for finding traveling wave solutions to KdV equation (929)
Jing PANG (庞晶), Chun-quan BIAN (边春泉), Lu CHAO (朝鲁)
