Vol. 38 No. 9 Setp. 2017 (Monthly)

- Interplay of surface geometry and vorticity dynamics in incompressible
flows on curved surfaces (1191)
Qian SHI, Yu CHEN, Xilin XIE
- Mechanism of three-dimensional boundary-layer receptivity (1213)
Luyu SHEN, Changgen LU
- Structure-preserving properties of Störmer-Verlet scheme for
mathematical pendulum (1225)
Weipeng HU, Mingzhe SONG, Zichen DENG
- Bifurcation characteristics analysis of a class of nonlinear dynamical
systems based on singularity theory (1233)
Kuan LU, Yushu CHEN, Lei HOU
- Arm motion control model based on central pattern generator (1247)
Zhigang ZHENG, Rubin WANG
- Optimal control of attitude for coupled-rigid-body spacecraft via
Chebyshev-Gauss pseudospectral method (1257)
Xinsheng GE, Zhonggui YI, Liqun CHEN
- Analytical method for evaluating stress field in casing-cement-formation
system of oil/gas wells (1273)
Wei LIU, Baohua YU, Jingen DENG
- Layer-element analysis of multilayered saturated soils subject to axisymmetric
vertical time-harmonic excitation (1295)
Zhiyong AI, Lihua WANG
- Dispersion and attenuation of torsional wave in a viscoelastic layer bonded
between a layer and a half-space of dry sandy media (1313)
P. ALAM, S. KUNDU, S. GUPTA
- Complex variable solution for boundary value problem with X-shaped cavity
in plane elasticity and its application (1329)
