

CONTENTS

Vol. 36 No. 3 Mar. 2015 (Monthly)

Vibration analysis and active control of nearly periodic two-span beams with piezoelectric actuator/sensor pairs	(279)
Fengming LI, Zhiguang SONG	
Exact identities for sessile drops	(293)
M. HAJIRAHIMI, F. MOKHTARI, A. H. FATOLLAHI	
Modified Burzynski criterion with non-associated flow rule for anisotropic asymmetric metals in plane stress problems	(303)
F. MOAYYEDIAN, M. KADKHODAYAN	
Outer synchronization of uncertain small-world networks via adaptive sliding mode control	(319)
Shuang LIU, Liqun CHEN	
Stochastic response analysis of noisy system with non-negative real-power restoring force by generalized cell mapping method	(329)
Qun HAN, Wei XU, Xiaole YUE	
Integral treatment for forced convection heat and mass transfer of nanofluids over linear stretching sheet	(337)
A. NOGHREHABADI, P. SALAMAT, M. GHALAMBAZ	
Generalized δ -entropy condition to Riemann solution for Chaplygin gas in traffic flow	(353)
Wancheng SHENG, Ying ZENG	
Classical and nonclassical symmetry classifications of nonlinear wave equation with dissipation	(365)
Yinshan YUN, Chaolu TEMUER	
Theory and application of numerical simulation method of capillary force enhanced oil production	(379)
Yirang YUAN, Aijie CHENG, Danping YANG, Changfeng LI, Yunxin LIU	
Existence of solutions for implicit fuzzy differential inclusions	(401)
Chao MIN, Nanjing HUANG, Zhibin LIU, Liehui ZHANG
