

CONTENTS

Vol. 36 No. 11 Nov. 2015 (Monthly)

Finding vibrations of inclined cable structures by approximately solving governing equations for exterior matrix.....	(1383)
W. PAULSEN, M. MANNING	
Forced response of quadratic nonlinear oscillator: comparison of various approaches	(1403)
Wenan JIANG, Guoce ZHANG, Liquan CHEN	
Bifurcation analysis of aero-engine's rotor system under constant maneuver load	(1417)
Lei HOU, Yushu CHEN	
P-wave velocity prediction in porous medium with liquid-pocket patchy saturation.....	(1427)
Jiawei LIU, Weitao SUN, Jing BA	
Mathematical and numerical modelling of large creep deformations for annular rotating disks.....	(1441)
K. SZUWALSKI, A. USTRZYCKA	
Investigation of third-grade non-Newtonian blood flow in arteries under periodic body acceleration using multi-step differential transformation method.....	(1449)
M. HATAMI, S. E. GHASEMI, S. A. R. SAHEBI, S. MOSAYEBIDORCHEH, D. D. GANJMI, J. HATAMI	
Stability of stratified shear flows in channels with variable cross sections	(1459)
V. R. REDDY, M. SUBBIAH	
Optimizing progress variable definition in flamelet-based dimension reduction in combustion.....	(1481)
Jing CHEN, Minghou LIU, Yiliang CHEN	
Iterative dipole moment method for calculating dielectrophoretic forces of particle-particle electric field interactions	(1499)
Le LIU, Chuanchuan XIE, Bo CHEN, Jiankang WU	
Partial slip effects in flow over nonlinear stretching surface	(1513)
T. HAYAT, M. IMTIAZ, A. ALSAEDI
