

CONTENTS

Vol. 36 No. 6 Jun. 2015 (Monthly)

Instability of binary nanofluids with magnetic field	(693)
U. GUPTA, J. SHARMA, V. SHARMA	
Simple analytical model for depth-averaged velocity in meandering compound channels	(707)
Yuqi SHAN, Chao LIU, Maokang LUO	
Spatial relation between fluctuating wall pressure and near-wall streamwise vortices in wall bounded turbulent flow	(719)
Mingwei GE, Yingtao ZUO, Ying DENG, Yuhua LI	
Effects of supported angle on stability and dynamical bifurcations of cantilevered pipe conveying fluid	(729)
Chunbiao GAN, Shuai JING, Shixi YANG, Hua LEI	
Three-dimensional boundary layer flow of Maxwell nanofluid: mathematical model	(747)
T. HAYAT, T. MUHAMMAD, S. A. SHEHZAD, A. ALSAEDI	
Comparison about parametric effects on wave propagation characteristics.....	(763)
Zhijun LIU, Tangdai XIA, Qingqing ZHENG, Weiyun CHEN	
Analytical solution of multiple moving cracks in functionally graded piezoelectric strip	(777)
R. BAGHERI, M. AYATOLLAHI, S. M. MOUSAVI	
General solutions of plane problem in one-dimensional quasicrystal piezoelectric materials and its application on fracture mechanics	(793)
Jing YU, Junhong GUO, Ernian PAN, Yongming XING	
Theory and calculation of stress transfer between fiber and matrix.....	(815)
Jiayu WU, Hong YUAN, Renhuai LIU	
Yeast protein-protein interaction network model based on biological experimental data.....	(827)
Chunhong WANG, Shuiming CAI, Zengrong LIU, Youwen CHEN
