

---

Editorial

**1013 Photovoltaic double-skin façade: A combination of active and passive utilizations of solar energy**

C. Xu, X. Ma and C. W. F. Yu

---

Original Papers

**1018 A simplified approach to predict temperature distributions in a mechanically ventilated atrium using a thermal response factor method**

D. D. Kim, E. Lee, M. G. So and T. Kim

**1031 Numerical investigation on the influence of ventilation shaft on gaseous radionuclide diffusion of uranic exhaust in atmosphere**

R. Yang, X. Zhang, Y. Zhong and Y. Ye

**1038 Preparation of a polyacrylonitrile/polyurethane nanofibrous membrane with antibacterial function and measurement of its air filtration performance**

Y. Wu, Y. Lu and G. Cao

**1049 Ventilation inlets design based on ventilation performance assessment using a dimensionless time scale**

S.-J. Cao, H.-Y. Deng, X. Zhou and Y. Deng

**1064 Work performance in relation to lighting environment in office buildings**

C. Sun, Z. Lian and L. Lan

**1083 Study on the subway environment induced by moving train using Gaussian distributed momentum source theory method**

C. Ren, Z. Feng, D. Cen and S.-J. Cao

**1092 Evaluation of airborne contaminant exposure in a single-bed isolation ward equipped with a protected occupied zone ventilation system**

A. Aganovic and G. Cao

**1104 Optimal configurations of high-rise buildings to maximize solar energy generation efficiency of building-integrated photovoltaic systems**

L. Yang, X. Liu and F. Qian

**1126 Design suggestions for greater teamwork, communication and security in hospital emergency departments**

A. Gharaveis, D. K. Hamilton, M. Shepley, D. Pati and S. Rodiek

**1140 Short-term exposure assessment to particulate matter and total volatile organic compounds in indoor air during cooking Ethiopian sauces (Wot) using electricity, kerosene and charcoal fuels**

A. Embiale, F. Zewge, B. S. Chandravanshi and E. Sahle-Demessie
