

Contents

Editorial

- 581 **On the inside – the UK Government’s Clean Air Strategy in respect of volatile organic compounds in buildings**
C. Shrubsole

Original Papers

- 584 **Fuzzy logic model for the categorization of manual lighting control behaviour patterns based on daylight illuminance and interior layout**
A. C. Kunduraci and Z. T. Kazanasmaz
- 599 **Revitalization of air using a potassium superoxide plate in hypoxic space: Performance and kinetic model under natural convection conditions**
S. Wang, T. Zhang and L. Jin
- 611 **Measurement of uranium and radon concentration in drinking water samples and assessment of ingestion dose to local population in Jalandhar district of Punjab, India**
M. Kumar, A. Kaushal, B. K. Sahoo, A. Sarin, R. Mehra, R. Jakhu, A. Bhalla and N. Sharma
- 619 **Convective dispersion of heat and airborne pollutants inside street canyons under the influence of urban ground heat flows**
C.-W. Liu, S.-J. Mei, D. Liu and F.-Y. Zhao

- 636 **Cooling energy reduction effect of parallel double-window system operation in residential buildings in South Korea**
S.-W. Lee, S.-B. Leigh, T. Kim, C. H. Cheong and S. Cho
- 659 **Emission characterization of size-resolved particles in a pre-school classroom in relation to children’s activities**
J. Kim, S. Park, H. Kim and M. S. Yeo
- 677 **Investigation of thermal indoor climate for a passive house in a sub-Arctic region using computational fluid dynamics**
D. Risberg, M. Risberg and L. Westerlund
- 693 **Indoor temperature and relative humidity assessment of three construction systems for Dominican social housing in different micro-climates: A modelling study**
Y. G. Frómeta, L. R. Valero and J. C. Rojo
- 711 **Questionnaire survey on the summer air-conditioning use behaviour of occupants in residences and office buildings of China**
X. Meng, Y. Gao, C. Hou and F. Yuan
