

# Aircraft Engineering and Aerospace Technology

*An International Journal*

## Number 2

- 74 Access this journal online
- 75 Ceramic engine considerations for future aerospace propulsion  
Amir S. Gohardani and Omid Gohardani
- 87 Attitude and heading reference system with acceleration compensation  
Elder M. Hemerly, Benedito C.O. Maciel, Anderson de P. Milhan and Valter R. Schad
- 94 Strap-down stabilization for multi-load optoelectronic imaging platform  
Yawei Wang, Weihu Zhou, Xiaoquan Han, Zhongyu Wang and Jinbin Ding
- 103 Dynamics of vibration isolation system obeying fractional differentiation  
Song Li, Bo Fang, Tianzhi Yang, Yewei Zhang, Lijun Tan and Wenhui Huang
- 109 Attitude motion of spacecraft during oblique solar panel deployment  
Bai Zhengfeng and Zhao Yang
- 115 Gathering the fractionated electromagnetic satellites cluster by simulating fish school  
Jianmin Su and Yunfeng Dong
- 120 Paper from the *AEAT* archives
