

Aircraft Engineering and Aerospace Technology

An International Journal

Number 3

- 170 Access this journal online
- 171 Bonded composite repair structures multiple site damage analysis
Chi Chen, Thanh Hai Tran and Alex A. Volinsky
- 178 Coning algorithm based on singular perturbation
Li Fu, Lingling Wang and Jianghai Hu
- 186 Damaged airplane flight envelope and stability evaluation
Davood Asadi, Mahdi Sabzehparvar and Heidar Ali Talebi
- 199 Assessment and optimization of an airplane's environmental impact
Ramesh Agarwal and Zheming Zhang
- 207 Effect of power on PPT discharge current
Abdolrahim Rezaeiha
- 215 Unobservable fuzzy Petri net diagnosis technique
Ruoming An and Wei Liang
- 222 Attitude coordination of satellite swarms with communication delays
Haizhao Liang, Zhaowei Sun and Jianying Wang
- 236 Inclusion effects of J_2 -perturbed motion over Melton's problem
Ahmad Soleymani and Alireza Toloei
