

**INTERNATIONAL JOURNAL OF BIOMATHEMATICS**

*Vol. 4, No. 2 (June 2011)*

**CONTENTS**

Global Dynamics of a Malaria Model with Partial Immunity and Two Discrete Time Delays <i>C. Chiyaka, Z. Mukandavire and P. Das</i>	135
Dynamics Analysis of Impulsive Stochastic High-Order BAM Neural Networks with Markovian Jumping and Mixed Delays <i>H. Jiang and J. Liu</i>	149
A Generalized Entropy-Based Residual Lifetime Distributions <i>V. Kumar and H. C. Taneja</i>	171
A Study of Differential Equation Modeling Malignant Tumor Cells in Competition with Immune System <i>R. Yafia</i>	185
Mathematical Modeling of Blood Flow in a Porous Vessel Having Double Stenoses in the Presence of an External Magnetic Field <i>J. C. Misra, A. Sinha and G. C. Shit</i>	207
Analysis on an Epidemic Model with a Ratio-Dependent Nonlinear Incidence Rate <i>B. Li, S. Yuan and W. Zhang</i>	227
Finite Element Model to Study Thermal Effect of Uniformly Perfused Tumor in Dermal Layers of Elliptical Shaped Human Limb <i>M. Agrawal, N. Adlakha and K. R. Pardasani</i>	241
