

INTERNATIONAL JOURNAL OF BIOMATHEMATICS
Vol. 3, No. 4 (December 2010)

CONTENTS

Dynamics of a Segmentation Clock Model with Discrete and Distributed Delays <i>P. Feng</i>	399
The Development and Stability Analysis of a Nonlinear Growth Model for Microorganisms <i>Y. Li, H. Men, G. Thomson and F. Tian</i>	417
Transient Temperature Distribution in Human Dermal Part with Protective Layer at Low Atmospheric Temperature <i>D. B. Gurung and V. P. Saxena</i>	439
Peristaltic Transport of a Casson Fluid in a Finite Channel: Application to Flows of Concentrated Fluids in Oesophagus <i>S. K. Pandey and D. Tripathi</i>	453
Unsteady Model of Transportation of Jeffrey-Fluid by Peristalsis <i>S. K. Pandey and D. Tripathi</i>	473
Geometrical and Topological Duality in Crowd Dynamics <i>V. G. Ivancevic and D. J. Reid</i>	493
Approximate Traveling Wave Solution of Avian Flu Telegraph Reaction Diffusion Equation <i>S. A. A. Ahmed</i>	509
Author Index	515
