

# INTERNATIONAL JOURNAL OF BIOMATHEMATICS

Vol. 7, No. 5 (September 2014)

## CONTENTS

- Spatial pattern in a diffusive predator-prey model with sigmoid ratio-dependent functional response 1450047  
*L. N. Guin and P. K. Mandal*
- Local multifractal detrended fluctuation analysis for tea breeds identification 1450048  
*F. Wang, R.-B. Zou, G.-P. Liao, J.-W. Li and Z.-Q. Liu*
- Series solution of unsteady peristaltic flow of a Carreau fluid in small intestines 1450049  
*A. Riaz, S. Nadeem, R. Ellahi and N. S. Akbar*
- On the existence of traveling wave solutions and upper and lower bounds for some Fisher-Kolmogorov type equations 1450050  
*J. Belmonte-Beitia*
- Mathematical analysis on a multidimensional model of morphogen transport with receptor synthesis 1450051  
*H. Yin, X. Xiao, X. Wen and T. Zhou*
- Using long-range contact number information for protein secondary structure prediction 1450052  
*Y. Feng and L. Luo*
- Chapman-Kolmogorov equations for global PPIs with Discriminant-EM 1450053  
*Md. S. Kamal and M. I. Khan*
- Analysis of a sex-structured HIV/AIDS model with the effect of screening of infectives 1450054  
*S. Athithan and M. Ghosh*
- Global properties of a cell mediated immunity in HIV infection model with two classes of target cells and distributed delays 1450055  
*A. M. Elaiw, R. M. Abukwaik and E. O. Alzahrani*

Covered in Science Citation Index Expanded (also known as SciSearch®), Journal Citation Reports/Science Edition, Biological Abstracts, BIOSIS Previews

# CONTENTS — (Continued)

- An optimal control model of mosquito reduction management  
in a dengue endemic region 1450056  
*K. P. Wijaya, T. Götz and E. Soewono*
- Hall effects on peristaltic flow of couple stress fluid in an inclined  
asymmetric channel 1450057  
*T. Hayat, M. Iqbal, H. Yasmin and F. Alsaadi*
- Convective heat and mass transfer analysis on peristaltic flow  
of Williamson fluid with Hall effects and Joule heating 1450058  
*H. Yasmin, T. Hayat, N. Alotaibi and H. Gao*
- Efficiency decomposition in parallel production systems with shared  
sources on interval data: An illustration of Iranian Banks 1450059  
*S. Kordrostami*
