

## Contents

On-line chatter detection and identification based on wavelet and support vector machine .....	713
Z. Yao, D. Mei, Z. Chen	
The effect of an innovative atmospheric plasma jet treatment on physical and mechanical properties of wool fabrics.....	720
A. Ceria, F. Rombaldoni, G. Rovero, G. Mazzuchetti, S. Sicardi	
Effect of reprocessing and accelerated ageing on thermal and mechanical polycarbonate properties .....	727
J.M. Pérez, J.L. Vilas, J.M. Laza, S. Arnáiz, F. Mijangos, E. Bilbao, M. Rodríguez, L.M. León	
Strain rate sensitivity of a high strain rate superplastic TiN <sub>p</sub> /2014 Al composite .....	734
H.E. Hu, L. Zhen, T. Imai	
Predicting instability at die radii in advanced high strength steels .....	741
A.W. Hudgins, D.K. Matlock, J.G. Speer, C.J. Van Tyne	
Enhancing room temperature mechanical properties of Mg–9Al–Zn alloy by multi-pass equal channel angular extrusion.....	751
J. Jiang, Y. Wang, Z. Du, J. Qu, Y. Sun, S. Luo	
Effects of process parameters on workpiece roundness in tangential-feed centerless grinding using a surface grinder .....	759
W. Xu, Y. Wu, T. Sato, W. Lin	
Effect of conventional and rheocasting processes on microstructural characteristics of hypereutectic Al–Si–Cu–Mg alloy with variable Mg content .....	767
A. Hekmat-Ardakan, F. Ajersch	
Process design of multi-stage wet wire drawing for improving the drawing speed for 0.72 wt% C steel wire.....	776
S.-K. Lee, S.-B. Lee, B.-M. Kim	
Microstructure and mechanical properties of 17-4PH steel plasma nitrocarburized with and without rare earths addition .....	784
R.L. Liu, M.F. Yan, D.L. Wu	
Brazing of Mo to a CuZr alloy for the production of bimetallic raw materials for the CLIC accelerating structures .....	791
M. Salvo, V. Casalegno, S. Rizzo, M. Ferraris, G.A. Izquierdo, S. Heikkinen, S. Sgobba, M. Taborelli	
Modeling of process geometry in peripheral milling of curved surfaces .....	799
Z.-C. Wei, M.-J. Wang, R.-G. Ma, L. Wang	
An investigation of the effects of the tool path on the removal of material in polishing.....	807
H.-y. Tam, H. Cheng	
Development of temperature sensor thin films to monitor turning processes.....	819
W. Tillmann, E. Vogli, J. Herper, D. Biermann, K. Pantke	
Retraction notice to "Effect of natural aging on the resistivity evolution during artificial aging of the Al–Zn–Mg–Zr alloy" [J. Mater. Process. Technol. 194 (November (1–3)) (2007) 184–186] .....	824
A. Thakur, R. Raman, S.N. Malhotra
