## Contents

Through-thickness shear strain control in cold rolled silicon steel by the coupling effect of roll gap geometry and friction .....	1545
H.P. Yang, Y.H. Sha, F. Zhang, L. Zuo	
An elevated temperature electrospinning process for preparing acyclovir-loaded PAN ultrafine fibers .....	1551
H.-M. Chen, D.-G. Yu	
Corrugated glass-ceramics from LZSA cast tapes .....	1556
T. Hausöl, C.M. Gomes, H. Birol, A.P.N. Oliveira, D. Hotza, N. Travitzky, P. Greil	
A geometrical model of the kinematics of incremental sheet forming for the prediction of membrane strains and sheet thickness. ....	1562
M. Bambach	
Grain refinement and mechanical properties of asymmetrically rolled low carbon steel .....	1574
K.-M. Lee, H.-C. Lee	
Cold repeated forming of compact for aluminium foam .....	1580
K.-i. Mori, H. Nishikawa	
Experimental simulation of strip edge cracking in steel rolling sequences .....	1587
C. Hubert, L. Dubar, M. Dubar, A. Dubois	
Preliminary study on the fabrication of aluminium foam through pressure assisted sintering dissolution process .....	1598
F. Mustapha, M. Mustapha, K. Noorsal, O. Mamat, P. Hussain, F. Ahmad, N. Muhamad, S.M. Haris	
The role of creep and fatigue in determining the high-temperature behaviour of AISI H11 tempered steel for aluminium extrusion dies. ....	1613
B. Reggiani, L. Donati, J. Zhou, L. Tomesani	
Single track formation in selective laser melting of metal powders .....	1624
I. Yadroitsev, A. Gusarov, I. Yadroitsava, I. Smurov	
Semisolid structure for M2 high speed steel prepared by cooling slope .....	1632
B. Amin-Ahmadi, H. Aashuri	
Numerical and experimental investigation into effect of temperature field on sensitization of Alloy 690 butt welds fabricated by gas tungsten arc welding and laser beam welding. ....	1636
H.T. Lee, C.T. Chen, J.L. Wu	
Improvement of mechanical properties of ferritic stainless steel weld metal by ultrasonic vibration .....	1646
T. Watanabe, M. Shiroki, A. Yanagisawa, T. Sasaki	
Microstructural evolution caused by electromagnetic stirring in superheated AlSi7Mg alloys .....	1652
J. Wang, P. Li, G. Mi, Y. Zhong	
Strengthening mechanisms of a new 700 MPa hot rolled Ti-microalloyed steel produced by compact strip production .....	1660
X. Mao, X. Huo, X. Sun, Y. Chai	
Experimental study on Friction Stir Welding of copper metals .....	1667
Y.M. Hwang, P.L. Fan, C.H. Lin	
Effect of pressurization profile on the deformation characteristics of fine-grained AZ31B Mg alloy sheet during gas blow forming. ....	1673
P.-H. Sun, H.-Y. Wu, H.-H. Tsai, C.-C. Huang, M.-D. Tzou
