REGULAR PAPERS

A/D and D/A Conversion, Analog, and Digital Instrumentation
The Maximum-Likelihood Noise Magnitude Estimation in ADC Linearity Measurements

A. A. Amarantidis and I. Andreadis

Instrumentation for and Measurement in Communication
A New Network Synchronizer Using Phase Adjustment and Feedforward Filtering Based on Low-Cost Crystal Oscillators

C.-K. Seong, S.-W. Lee, and W.-Y. Choi

A Passive Differential Termination and Signal Sensing Device for High-Speed (40 Gb/s) Test Applications

C. M. Smuizer, P. I. Zabinski, B. K. Gilbert, and E. S. Daniel

Non-Data-Aided Parametric- and Nonparametric-Based Carrier Frequency Estimators for Burst GMSK Communication Systems

M. A. Magaña and A. Kandukuri

In instrumentation for and Measurement of Electric Power Systems, Energy Metering, and Electric Power Quality
Robust Adaptive Frequency Estimation of Three-Phase Power Systems

M. Majiri, D. Yazdani, and A. Bakhshai

Dynamic Phasor and Frequency Estimates Through Maximally Flat Differentiators

M. A. Platas-Garza and J. A. de la O Serna

Built-in Self-Test, Design-for-Testing, Fault Diagnosis, and Fault-Tolerance
Reliability Modeling and Analysis of Clockless Wave Pipeline Core for Embedded Combinational Logic Design

T. Feng, N.-J. Park, M. Choi, and N. Park

Computational Imaging Techniques
Adaptive Reflection Detection and Location in Iris Biometric Images by Using Computational Intelligence Techniques

F. Scotti and V. Piuri

Unmixing Low-Ratio Endmembers in Hyperspectral Images Through Gaussian Synapse ANNs

F. L. Peña, J. L. Crespo, and R. J. Duro

Measurement Techniques
Measurement and Defect Detection of the Weld Bead Based on Online Vision Inspection

Y. Li, Y. F. Li, Q. L. Wang, D. Xu, and M. Tan

A New Device for In Situ Measurement of an Impedance Profile at 1–20 MHz

X. Chavanne, J.-P. Frangi, and G. de Rosny

Test Structure for Characterization of Low-Frequency Noise in CMOS Technologies

C. Wei, Y.-Z. Xiong, and X. Zhou

(Contents Continued on Page 1745)
A Simultaneous Estimation of Frequency, Magnitude, and Active and Reactive Power by Using Decoupled Modules

M. D. Kuklević

Noncontact 3-D Coordinate Measurement of Cross-Cutting Feature Points on the Surface of a Large-Scale Workpiece Based on the Machine Vision Method

S. Zhu and Y. Guo

G. M. Balim, R. A. Dougall, V. A. Lyashev, V. P. Popov, Y.-J. Shin, and F. E. O. Stone

Metrology, Standards, and Calibration

Strong Attenuation of the Transients' Effect in Square Waves Synthesized With a Programmable Josephson Voltage Standard

B. Jeanneret, F. Overney, A. Rüfenacht, and J. Nissilä

Networking, Networks, and Sensor Networks

Instrumentation for an Urban Series-PHEV Bus With Onboard-Based Sensors and Automotive Network Standards

P. Muriño, F. Pozo, M. A. Domínguez, and S. Otero

Nondestructive Evaluation and Remote Sensing

Assessment of Three Spectroscopic Techniques for Rapid Estimation of Calcite in Copper Ore

P. Escudate, A. R. Guesalaga, V. R. Albertini, and D. Bailo

Optical Instrumentation, Measurement, and Systems

Measurements and Error Sources in Time Transfer Using Asynchronous Fiber Network

S.-C. Ebenhag, P. O. Hedekvist, P. Jarlemark, R. Emardson, K. Jaldéhag, C. Rieck, and P. Löhberg

Monitoring Absorption Changes in a Layered Diffusive Medium by White-Light Time-Resolved Reflectance Spectroscopy

A. Giusto, C. D'Andrea, L. Spinelli, D. Contini, A. Torricelli, F. Marielli, G. Zaccanti, and R. Cubeddu

Sensors, Sensor Fusion, and Transducers

Effects of Mechanical Tolerances on QMF Performance for Operation in the Third Stability Zone

T. J. Hogan and S. Taylor

Airborne Vehicle Mapping of Curvilinear Objects Using 2-D Splinegon

S. Lazarus, A. Tsourdos, B. A. White, F. M. G. Silson, and R. Zbikowski

A Multivariable Detection Device Based on a Capacitive Microphone and Its Application to Security

K. Watanabe, T. Ishigaki, and T. Higuchi

Target Registration Correction Using the Neural Extended Kalman Filter

K. A. Kramer, S. C. Subberud, and J. A. Geremia

Signals, Systems, and System Identification

Detection and Localization of Load Coils from One-Port Measurements

F. Lindqvist and A. Fertner

SHORT PAPERS

Measurement of IC-Generated Emissions by Employing a Backward-Wave Directional Coupler

F. Musolino

Construction of Local Anchor Map for Indoor Position Measurement System

Y. Zhou, C. L. Law, and F. Chin
