This journal is part of ScienceDirect's free alerting service that emails you tables of contents and favourite topics for Elsevier books and journals. You can register by clicking "Alerts" at [www.sciencedirect.com](http://www.sciencedirect.com)
(Continued from back cover)

R. Anantharaman, L. Nastad, B. Nygreen and T. Gundersen

Z. Kravanja

L. Woodward, M. Perrier and B. Srinivasan

A. Hartwich and W. Marquardt

U. Nallasivam, S. Babji and R. Rengaswamy

K. Nolde and M. Morari

G. Buzzi-Ferraris and F. Manenti

1822 The sequential framework for heat exchanger network synthesis—The minimum number of units sub-problem

1831 Challenges in sustainable integrated process synthesis and the capabilities of an MINLP process synthesizer MipSyn

1849 Development and validation of models for annealing furnace control from heat transfer fundamentals

1854 Data-driven predictive control for blast furnace ironmaking process

1863 Real-time optimization using a jamming-free switching logic for gradient projection on active constraints

1873 Dynamic optimization of the load change of a large-scale chemical plant by adaptive single shooting

1890 Stiction identification in nonlinear process control loops

1899 Electrical load tracking scheduling of a steel plant

1904 Better reformulation of kinetic models
