Vol. 40 No. 7 Jul. 2019 (Monthly)

- Dynamic stiffness method for free vibration of an axially moving beam  
with generalized boundary conditions ..... (911)  
Hu DING, Minhui ZHU, Liqun CHEN
- Magnetoelastic combined resonance and stability analysis of a ferromagnetic  
circular plate in alternating magnetic field ..... (925)  
Yuda HU, Bingbing MA
- Transient thermo-mechanical analysis for bimorph soft robot based  
on thermally responsive liquid crystal elastomers ..... (943)  
Yun CUI, Yafei YIN, Chengjun WANG, K. SIM,  
Yuhang LI, Cunjiang YU, Jizhou SONG
- Analytical solutions for buckling of size-dependent Timoshenko beams ..... (953)  
Xiaojian XU, Mulian ZHENG
- Analysis of in-plane 1:1:1 internal resonance of a double cable-stayed  
shallow arch model with cables' external excitations ..... (977)  
Yunyue CONG, Houjun KANG, Tieding GUO
- Postbuckling analysis of functionally graded graphene platelet-reinforced  
polymer composite cylindrical shells using an  
analytical solution approach ..... (1001)  
S. BLOORIYAN, R. ANSARI, A. DARVIZEH,  
R. GHOLAMI, H. ROUHI
- Rotating electroosmotic flows in soft parallel plate microchannels ..... (1017)  
Yongbo LIU, Yongjun JIAN
- Bio-fluid flow analysis based on heat transfer and variable viscosity ..... (1029)  
H. SADAF
- Drag reduction of turbulent channel flows over an anisotropic porous  
wall with reduced spanwise permeability ..... (1041)  
Qingxiang LI, Ming PAN, Quan ZHOU, Yuhong DONG
