

IEEE TRANSACTIONS ON RELIABILITY

published by the
IEEE RELIABILITY SOCIETY

and Journal of the
ASQ—ELECTRONICS & COMMUNICATIONS Division

DECEMBER 2011

VOLUME 60

NUMBER 4

IERQAD

(ISSN 0018-9529)

PAPERS

- Acceleration*
Accelerated Destructive Degradation Tests Robust to Distribution Misspecification *S.-L. Jeng, B.-Y. Huang, and W. Q. Meeker* 701
Modeling and Planning of Step-Stress Accelerated Life Tests With Independent Competing Risks *X. Liu and W. S. Qiu* 712
- Burn-In*
Burn-in for Systems Operating in a Shock Environment *J. H. Cha and M. Finkelstein* 721
- Integrated Circuit Reliability*
Yield Prediction for Integrated Circuits Manufacturing Through Hierarchical Bayesian Modeling of Spatial Defects *T. Yuan, S. Z. Ramadan, and S. J. Bae* 729
An Efficient SER Estimation Method for Combinational Circuits *N. Kehl and W. Rosenstiel* 742
- Lifetime Data Analysis*
Birnbbaum-Saunders Mixed Models for Censored Reliability Data Analysis *C. Villegas, G. A. Paula, and V. Leiva* 748
- Maintenance*
Modeling and Assessment of Aging and Efficiency of Corrective and Planned Preventive Maintenance *L. Doyen and O. Gaudoin* 759
A Multi-Objective Optimization of Imperfect Preventive Maintenance Policy for Dependent Competing Risk Systems With Hidden Failure *Y. Wang and H. Pham* 770
Imperfect Repair Proportional Intensity Models for Maintained Systems *A. Syamsundar and V. N. A. Naikan* 782
- Networks and Systems*
Fast Efficient Design of Shared Backup Path Protected Networks Using a Multi-Flow Optimization Model *B. Todd and J. Doucette* 788
An Analytic Hierarchy Process-Based Risk Assessment Method for Wireless Networks *H.-Y. Tsai and Y.-L. Huang* 801
The Dynamic Signature of Coherent Systems *M. Mahmoudi and M. Asadi* 817
Highly Available Path Routing in Mesh Networks Under Multiple Link Failures *S. Yuan and B. Wang* 823
Optimal Reliability Demonstration Test Plans for k -out-of- n Systems of Gamma Distributed Components *A. J. Fernández* 833
Polynomial-Time Topological Reductions That Preserve the Diameter Constrained Reliability of a Communication Network *H. Cancela, M. El Khadiri, and L. A. Petingi* 845
- Prediction*
An Approach to Reliability Assessment Under Degradation and Shock Process *Z. Wang, H.-Z. Huang, Y. Li, and N.-C. Xiao* 852
- Prognostic Health Management*
Mahalanobis-Taguchi System as a Multi-Sensor Based Decision Making Prognostics Tool for Centrifugal Pump Failures *A. Soylemezoglu, S. Jagannathan, and C. Saygin* 864
