

Copper and Copper Alloy

2013 Vol. 52 No. 1

CONTENTS

[Special Lecture]

Overview of SPring-8 and Its Industrial Applications to Metallurgical Fields	01
Industrial Application Division, Japan Synchrotron Radiation Research Institute,	
Eminent Scientist, Coordinator	T. Hashimoto

[Papers]

《 Microstructure 》

Effect of Precipitation on Recrystallization During Rapid Heating and Cooling in a Cu-Ni-Si Alloy	09
Materials Research Laboratory, Kobe Steel, Ltd., Senior Researcher, Dr. Eng.	Y. Aruga
Materials Research Laboratory, Kobe Steel, Ltd., Senior Researcher, Dr. Eng.	T. Murakami
Microstructure and Tensile Deformation Behavior of Cu-Ni-Si Alloy	14
Graduate School of Science and Engineering, Tokyo Institute of Technology, Graduate Student	A. Araki
Graduate School of Science and Engineering, Tokyo Institute of Technology, Associate Professor, Dr. Eng.	E. Kobayashi
Precision and Intelligence Laboratory, Tokyo Institute of Technology, Professor, Dr. Eng.	T. Sato
Metal Research Center, Furukawa Electric Co., LTD., Dr. Eng.	K. Hirose
Metal Research Center, Furukawa Electric Co., LTD., Department Manager	T. Eguchi
Precipitation Behavior and Magnetic Properties of Nano-Scale Particles in a Cu-Ni-Co Alloy	19
Graduate School of Engineering, Yokohama National University, Ph. D., Student	D-H. Lee
Graduate School of Engineering, Yokohama National University, Associate Professor, Dr. Eng.	M. Takeda
Effect of B Addition on Precipitation Hardening of Cu-Ti Alloy	23
Department of Metallurgy and Ceramics Science, Tokyo Institute of Technology, Graduate Student	R. Furuta
Precision and Intelligence Laboratory, Tokyo Institute of Technology, Professor, Dr. Eng.	T. Sato
Department of Metallurgy and Ceramics Science, Tokyo Institute of Technology,	
Associate Professor, Dr. Eng.	E. Kobayashi
Department of Metallurgy and Ceramics Science, Tokyo Institute of Technology, Assistant Professor	H. Tezuka
Quantitative Evaluation of Precipitates in Age-Hardenable Cu-Ti Alloys by Extraction Procedure	30
Kansai Center, Institute for Materials Research, Tohoku University, Associate Professor, Ph. D	S. Semboshi
Institute for Materials Research, Tohoku University	M. Ishikuro
Institute for Materials Research, Tohoku University, Associate Professor, Ph. D	S. Sato
Institute for Materials Research, Tohoku University, Professor, Ph. D	K. Wagatsuma
Department of Materials Science, Osaka Prefecture University, Professor, Ph. D	T. Takasugi
Technology Center, DOWA METALTECH Co., LTD., Chief Researcher, Dr. Eng.	W. Gao
Technology Center, DOWA METALTECH Co., LTD., Director, General Manager, Dr. Eng.	A. Sugawara
Investigations of the Mechanisms of Dynamic Recrystallization in Cu-Sn Alloy Polycrystals and Bicrystals	36
Research & Development Section, Technical Department, HATANO PLANT,	
KOBELCO & MATERIALS COPPER TUBE, LTD., Chief Researcher, Dr. Eng.	M. Watanabe
Department of Mechanical Engineering and Intelligent Systems, UEC Tokyo	
(The University of Electro-Communications), Graduate Student	H. Aoyama
Kobelco & Materials Copper Tube (M) Sdn. Bhd., Managing Director	A. Ishibashi
Department of Mechanical Engineering and Intelligent Systems, UEC Tokyo	
(The University of Electro-Communications), Associate Professor, Dr. Eng.	H. Miura

Hardness Change and Observation for Microstructure in Zr Bearing 60/40 Cu-Zn Alloy annealed at 523 K	42
Graduate School of Science & Engineering for Education, University of Toyama, Graduate Student	A. Maeda
Graduate School of Science & Engineering for Education, University of Toyama, Graduate Student	S. Shimada
Graduate School of Science & Engineering for Research, University of Toyama, Professor, Dr. Eng.	K. Matsuda
Graduate School of Environmental Studies, Tohoku University, Assistant Professor, Dr. Eng.	J. Nakamura
Graduate School of Science & Engineering for Research, University of Toyama,	
Associate Professor, Dr. Eng.	S. Saikawa
Faculty of Engineering, Toyama Prefectural University, Associate Professor, Dr. Eng.	Y. Uetani
Hokuriku Polytechnic College, Professor, Dr. Eng.	S. Ikeno
Cu-Zn-Ti Solid-State Phase Equilibria in the Cu-Rich Region	50
Fundamental Technology Division, Machinery and Engineering Group, YKK CORPORATION,	
General Manager, Dr. Eng.	Y. Yoshimura
 《 Melting, Casting 》	
Continuous Casting of Cu-Zn-Si Alloy	55
Copper & Copper Alloy Development Center, Mitsubishi Materials Corporation, Researcher	S. Yano
Copper & Copper Alloy Development Center, Mitsubishi Materials Corporation, Assistant Manager	T. Sakamoto
Copper & Copper Alloy Development Center, Mitsubishi Materials Corporation, Researcher	T. Sonohata
Research & Development Dept. Sambo, Mitsubishi Shindoh Co., Ltd., Assistant Researcher	T. Oka
 《 Joining 》	
Cold Butt Joining of Copper Sheet with Dissimilar Sheet by Plastic Flow	61
Graduate School of Engineering, University of Hyogo, Associate Professor	Y. Harada
Graduate School of Engineering, University of Hyogo, Associate Professor	M. Nunobiki
Effect of Gap and Influence of Thickness with Sheet on Magnetic Pulse Welding for Copper Sheets	66
Department of Monozukuri Engineering, TMCIT Tokyo	
(The Tokyo Metropolitan College of Industrial Technology), Emeritus Professor, Dr. Eng.	K. Okagawa
Department of Monozukuri Engineering, TMCIT Tokyo	
(The Tokyo Metropolitan College of Industrial Technology), Associate Professor, Dr. Eng.	M. Ishibashi
Department of Monozukuri Engineering, TMCIT Tokyo	
(The Tokyo Metropolitan College of Industrial Technology), Associate Professor, Dr. Sci.	E. Kabasawa
Department of Electronics and Information Engineering, TMCT Tokyo	
(The Tokyo Metropolitan College of Technology), Emeritus Professor, Dr. Sci.	T. Aizawa
Effect of Large Current on Interfacial Microstructure and Joint Strength between	
Sn-Cu-Ni System Lead-free Solder and Copper Electrode	72
Graduate School of Science and Engineering, Kansai University, Graduate Student	D. Kato
Faculty of Chemistry, Materials and Bioengineering, Kansai University, Professor, Dr. Eng.	M. Ikeda
Faculty of Chemistry, Materials and Bioengineering, Kansai University, Associate Professor, Dr. Eng.	M. Ueda
NIHON SUPERIOR CO., LTD.	S. Suenaga
NIHON SUPERIOR CO., LTD.	T. Nishimura
 《 Metal Processing, Cold Processing 》	
Occurrence of Dynamic Recrystallization in Copper Wire Drawing	76
School of Engineering, Tokai University, Professor, Dr. Eng.	K. Yoshida
Graduate School, Tokai University, Graduate Student	N. Katsuoka
Graduate School, Tokai University, Graduate Student	K. Doi
Study on Roll Coating in Cold Rolling of Brass Sheets	81
Technical & Marketing Section 2, Lubricants Department, Idemitsu Kosan Co., Ltd., Chief Engineer	H. Sugii
Metal Working Oil Group, Lubricants Research Laboratory, Idemitsu Kosan Co., Ltd., Researcher	N. Tanino
Division of Materials and Manufacturing Science, Graduate School of Engineering,	
Osaka University, Professor, Dr. Eng.	H. Utsunomiya

Introduction of the Automatic Rolling Technology to a 12-high Cluster Mill	87
2nd Department, Metal Research Center, Furukawa Electric CO., LTD., Researcher	S. Danjo
Production Reform Department, Metals Company, Copper Strip Division, The Furukawa Electric CO., LTD.	J. Nakano
Metal Process Engineering & Development Unit, Production Technology Innovation Center,	
Production Technology & Engineering Division, The Furukawa Electric CO., LTD.	Z. Sano
2nd Department, Metal Research Center, Furukawa Electric CO., LTD., General Manager	K. Kitazato
2nd Department, Metal Research Center, Furukawa Electric CO., LTD., Manager	Y. Mitani
The Effects of Structures and Mechanical Properties of Lotus-type Porous Copper by Shot Peening Process	92
Department of Applied Mechanics and Aerospace Engineering, School of Fundamental Science and Engineering,	
Waseda University, Undergraduate Student	K. Matsuda
Department of Applied Mechanics, Graduate School of Fundamental Science and Engineering,	
Waseda University, Graduate Student	S. Koriyama
Department of Applied Mechanics, Graduate School of Fundamental Science and Engineering,	
Waseda University, Graduate Student	P. Sae-Tae
	[Present : Toyota Motor Corporation]
School of Fundamental Science and Engineering, Waseda University, Professor, Dr. Eng.	S. Suzuki
School of Fundamental Science and Engineering, Waseda University, Professor, Dr. Eng.	M. Asakawa
The Institute of Scientific and Industrial Research, Osaka University, Assistant Professor, Dr. Eng.	T. Ide
The Wakasa Wan Energy Research Center, Director, Dr. Eng.	H. Nakajima
 《 Mechanical Property 》	
Effect of Ag Content on the Mechanical Properties and Grain Growth in Annealed Cu-Cr-Zr-Ag Alloys	97
Research and Development, Miyoshi Gokin Kogyo Co., Ltd., Manager	H. Eguchi
Research and Development, Miyoshi Gokin Kogyo Co., Ltd., Assistant Manager	M. Arai
Research and Development, Miyoshi Gokin Kogyo Co., Ltd.	S. Fujii
Graduate School of Engineering, Utsunomiya University, Professor, Dr. Eng.	Y. Takayama
Effect of Continuous Cyclic Bending on Stress Relaxation Characteristics of Oxygen-free Copper	103
Graduate School of Engineering, Utsunomiya University, Graduate Student	S. Norhafizah
Graduate School of Engineering, Utsunomiya University, Professor, Dr. Eng.	Y. Takayama
Graduate School of Engineering, Utsunomiya University, Senior Technician	H. Watanabe
Recrystallization Texture and Plastic Anisotropy in Cu-Ni-Si Alloy Sheets Processed by Combination of Symmetric and Asymmetric Rolling	109
Graduate School of Engineering, Osaka Prefecture University, Associate Professor, Dr. Eng.	H. Inoue
Microstructure and Mechanical Properties of Multi-Directionally Forged Cu-Be25 Alloy	115
Department of Mechanical Engineering and Intelligent Systems, UEC-Tokyo, Associate Professor, Dr. Eng.	H. Miura
Department of Mechanical Engineering and Intelligent Systems, UEC-Tokyo, Graduate Student	T. Seki
Research and Development, New Metal Division, NGK Insulators Ltd., Manager	N. Muramatsu
Research and Development, New Metal Division, NGK Insulators Ltd., Manager	T. Ishikawa
Changes in Microstructure and Mechanical Properties by Aging of Heavily Cold-Rolled Cu-Be Alloy	121
Department of Mechanical Engineering and Intelligent Systems, UEC-Tokyo, Associate Professor, Dr. Eng.	H. Miura
Department of Mechanical Engineering and Intelligent Systems, UEC-Tokyo, Graduate Student	R. Morita
Improvement in Strength of a Cu-Ni-P Alloy	126
Division of Mechanical Science and Engineering, Kanazawa University, Graduate Student	Y. Tsujiuchi
Division of Innovation Technology and Science, Kanazawa University, Research Associate, Dr. Eng.	K. Kita
Division of Innovation Technology and Science, Kanazawa University, Associate Professor, Dr. Eng.	C. Watanabe
Division of Innovation Technology and Science, Kanazawa University, Professor, Dr. Eng.	R. Monzen

《 Mechanical Property, Heat Treatment 》

Influence of Co and 90% Cold-Rolling on Microstructure and Strength of a Cu-Ni-Co-Si Alloy 131

Division of Mechanical Science and Engineering, Kanazawa University, Graduate Student K. Izawa

School of Mechanical Engineering, Kanazawa University, Student A. Ozawa

Division of Innovation Technology and Science, Kanazawa University, Associate Professor, Dr. Eng. C. Watanabe

Division of Innovation Technology and Science, Kanazawa University, Professor, Dr. Eng. R. Monzen

Influence of Heat Treatment Temperature on Precipitation Behaviors in Cu-Co-P Alloys 136

Central Research Institute, Mitsubishi Materials Corporation, Researcher Y. Tsugawa

[Present : Copper & Copper Alloy Development Center, Mitsubishi Materials Corporation]

Central Research Institute, Mitsubishi Materials Corporation, Assistant Manager, Dr. Eng. H. Mori

Central Research Institute, Mitsubishi Materials Corporation, Manager, Dr. Eng. K. Maki

Research & Development Dept. Sambo, R&D and Prod. Eng. Div., Mitsubishi Shindoh Co., Ltd.,

Senior Fellow, Dr. Eng. K. Oishi

《 Cutting 》

Effect of Width of Corner Flank Wear on Machinability of Copper and Copper Alloys 141

The University of Shiga Prefecture, School of Eng., Dept. of Mech. Sys. Eng., Asso. Prof., Dr. Eng. T. Tanaka

The University of Shiga Prefecture, School of Eng., Dept. of Mech. Sys. Eng., Student Y. Takahashi

AIST, Research and Innovation Promotion Headquarters N. Sawai

Effect of Cutting Edge Radius on Machinability of Copper and Copper Alloys 147

The University of Shiga Prefecture, School of Eng., Dept. of Mech. Sys. Eng., Asso. Prof., Dr. Eng. T. Tanaka

The University of Shiga Prefecture, School of Eng., Dept. of Mech. Sys. Eng., Student T. Nakahashi

AIST, Research and Innovation Promotion Headquarters N. Sawai

《 Corrosion, Anti-Corrosion 》

Effect of Residual Free Carbon on Localized Corrosion of Copper Pipe

Filled with Cooling Water during Winter Season 153

Technological Development Center, Showa Water Industries Co. Ltd., Chief Engineer Y. Mitamura

Living Corporation Operating Headquarters, TOKYO GAS CO., LTD., Section Chief N. Ninomiya

Technology Research Institute, TOKYO GAS CO., LTD. T. Daikuhara

Technological Development Center, Showa Water Industries Co. Ltd., General Manager Y. Inoue

Showa Water Industries Co. Ltd., Representative Director President, Dr. Eng. Y. Yamada

Influence of Inhibitors on the Corrosion of Steel and Copper in an Aqueous Solution of Propylene Glycol 158

Technical Development Center, SHOWA WATER INDUSTRIES CO., LTD., Staff Manager M. Endo

Technical Development Center, SHOWA WATER INDUSTRIES CO., LTD., General Manager Y. Inoue

SHOWA WATER INDUSTRIES CO., LTD., Representative Director President, Dr. Eng. Y. Yamada

Erosion Corrosion and its Prevention of Copper Tube in Hot-Water Circulating System 162

Research & Development Center, Sumitomo Light Metal Industries, LTD., Senior Research Engineer K. Kawano

Research & Development Center, Sumitomo Light Metal Industries, LTD., Senior Research Engineer S. Suzuki

Corrosion Resistance of Aquaculture Nets [UR30ST] 167

Research & Development Dept. Sambo, Mitsubishi Shindoh Co., Ltd., Research Engineer K. Hata

Research & Development Dept. Sambo, Mitsubishi Shindoh Co., Ltd., Senior Research Engineer S. Tanaka

Research & Development Dept. Sambo, Mitsubishi Shindoh Co., Ltd., Research Engineer K. Arai

Sambo Forging Co., Ltd., Engineer Assistant Manager T. Yoshikawa

Research & Development Dept. Sambo, Mitsubishi Shindoh Co., Ltd., Senior Fellow, Dr. Eng. K. Oishi

Electrochemical Behavior and it's Analysis of Ant's Nest Corrosion in Copper Tube 172

Muroran Institute of Technology O. Seri

Muroran Institute of Technology H. Ichimiya

Muroran Institute of Technology Y. Kameda

Muroran Institute of Technology M. Sakai

Behavior of Film Formation on Copper in Synthetic Freshwater Containing Silica	177
College of Design and Manufacturing Technology, Muroran Institute of Technology,	
Associate Professor, Dr. Eng.	M. Sakai
Division of Aerospace Engineering, Muroran Institute of Technology, Graduate Student	S. Araya
Investigation into New Method for Reproducing Moundless Type Pits of Copper	
Using Potentiostatically Polarized Test	182
College of Design and Manufacturing Technology, Muroran Institute of Technology,	
Associate Professor, Dr. Eng.	M. Sakai
Division of Aerospace Engineering, Muroran Institute of Technology, Graduate Student	N. Yamagishi
 《 Surface, Antimicrobial Property 》	
Relationship Between Bactericidal Properties and Tarnishing of Copper and its Alloys	187
Department of Microbiology & Parasitology, Kitasato University School of Medicine,	
Junior Associate Professor, Ph. D., ICD	T. Sasahara
Department of Dermatology, Kitasato University School of Medicine, Ph. D., M. D.	N. Niiyama
Japan Copper Development Association, Application Development & Supply-chain Management Director	Y. Yuki
Japan Copper Development Association, Secretary General	M. Wada
Japan Copper Development Association, Technology & Research Director	H. Saito
Nanocomposite Morphology of Nanograin-Sized Copper and Titania	
Photocatalysis as the Anti-Bacterial Agents by Mechanical Milling Method	191
Yamazaki Gakuen University, Natural/Environmental Science, Prof., Dr. Sci.	T. Ishida
Antifouling Activity of Copper Pipe for Golden Mussel in a Freshwater Supply System	195
Biological Environment Sector, Environmental Science Research Laboratory,	
Central Research Institute of Electric Power Industry	T. Kobayashi
Biological Environment Sector, Environmental Science Research Laboratory,	
Central Research Institute of Electric Power Industry	D. Nakano
Biological Environment Sector, Environmental Science Research Laboratory,	
Central Research Institute of Electric Power Industry	I. Sakaguchi
Japan Copper Development Association	H. Saito
Kabura-River Land Improvement District	H. Matsumoto
 《 Heat Transfer, Heat Exchanger 》	
Pressure Drop and Heat Transfer inside Corrugated Tubes for Hot-water Supply Systems	200
Graduate School of Marine Science and Technology, TUMST, Graduate Student	K. Watanabe
Graduate School of Marine Science and Technology, TUMST, Graduate Student	J. Shingai
Department of Electronics and Mechanical Engineering, Division of Marine Technology,	
Graduate School of Marine Science and Technology, TUMST, Professor, Dr. Eng.	N. Inoue
Hatano Works, Kobelco and Materials Copper Tubes CO. LTD., Senior Researcher, Dr. Eng.	H. Takahashi
Experimental Study on Flow Boiling Heat Transfer of R32 and R1234ze (E) in Horizontal Microfin Tubes	207
Faculty of Engineering Sciences, Kyushu University, Research Assistant Professor	C. Kondou
Interdisciplinary Graduate School of Engineering Sciences, Kyushu University, Doctoral Student	D. Baba
Faculty of Engineering Sciences, Kyushu University, International Institute for Carbon-Neutral Energy	
Research (WPI-I2CNER), Kyushu University, Professor	S. Koyama
Interdisciplinary Graduate School of Engineering Sciences, Kyushu University, Doctoral Student	F. Mishima
Experimental Study on Condensation of Zeotropic Mixtures R32/R1234ze (E) in Horizontal Micro-Fin Tubes	213
Interdisciplinary Graduate School of Engineering Sciences, Kyushu University, Graduate Student	D. Baba
Faculty of Engineering Sciences, Kyushu University, Dr. Philosophy	C. Kondou
Interdisciplinary Graduate School of Engineering Sciences, Kyushu University, Graduate Student	F. Mishima
Faculty of Engineering Sciences, Kyushu University, Professor, Dr. Engineering	S. Koyama
Kobelco & Materials Copper Tube LTD., Research & Development Section, Technical Department,	
Senior Researcher, Dr. Engineering	H. Takahashi

The Condensation Heat Transfer and Pressure Drop of Low-GWP Refrigerant Mixtures inside a Horizontal Internally Helical-Grooved Small-Diameter Tube	218
Department of Ocean Mechanical Engineering, National Fisheries University, Lecturer, Dr. Eng.	J. Ichinose
Graduate School of Marine Science and Technology, TUMST, Graduate Student	K. Kurita
Department of Electronics and Mechanical Engineering, Division of Marine Technology, Graduate School of Marine Science and Technology, TUMST, Professor, Dr. Eng.	N. Inoue
 《 Material Development 》	
Influence of Tensile Stress-Induced Local Crack on Superconducting Properties in Copper-Plated DyBCO Coated Conductor	225
Elements Strategy Initiative for Structural Materials, Kyoto University, Specially Appointed Professor, Dr. Eng.	S. Ochiai
Graduate School of Engineering, Kyoto University, Associate Professor, Dr. Eng.	H. Okuda
Graduate School of Engineering, Kyoto University, Graduate Student	T. Arai
Cryogenics Science Center, High Energy Accelerator Research Organization, Instructor, Dr. Eng.	M. Sugano
Research Institute for Applied Sciences, Principal Investigator, Dr. Eng.	K. Osamura
THEVA Dünnschichttechnik GmbH, Senior Researcher, Ph.D.	W. Prusseit
Microstructures and Mechanical and Electrical Properties of Wires Drawn from Hypoeutectic Cu-Zr Alloys Preprocessed by Spark Plasma Sintering	231
Research and Development, New Metals Division, NGK INSULATORS, LTD., Manager	N. Muramatsu
Institute for Materials Research, Tohoku University, Professor, Dr. Eng.	T. Goto
Properties of Pure Copper Powder Processed by Mechanical Milling	236
Graduate School of Industrial Technology, Nihon University, Postgraduate Student	R. Watanabe
Department of Mechanical Engineering, College of Industrial Technology, Nihon University, Professor, Ph.D	M. Kubota
Properties of Pure Copper Fabricated Via Mechanical Milling and Spark Plasma Sintering Process	240
Graduate School of Industrial Technology, Nihon University, Postgraduate Student	R. Watanabe
Department of Mechanical Engineering, College of Industrial Technology, Nihon University, Professor, Ph.D	M. Kubota
 《 Fatigue 》	
Fatigue Properties of Work-Hardened Oxygen-Free Copper in High-Pressure Hydrogen	245
Graduate School of Kyushu University	K. Kawakami
WPI-I2CNER, Kyushu University, Technical Staff	T. Soejima
Kyushu University · Professor, Air Liquide · Industrial Chair on Hydrogen Structural Materials and Fracture, WPI-I2CNER · Professor, AIST · Guest Researcher	M. Kubota
Effect of Rest Periods on Fatigue lifetime of Copper Foil	251
Products Development Sect., Kurami Works, JX Nippon Mining & Metals Corporation, Engineer	K. Nakamuro
Products Development Sect., Kurami Works, JX Nippon Mining & Metals Corporation, Manager	I. Kurosaki
Technology Dept., Kurami Works, JX Nippon Mining & Metals Corporation, General Manager	T. Hatano
Fatigue Crack Propagation on Aluminum Bronze Sheet	255
Faculty of Engineering, Tokai University, Former Professor, Current Part-Time Lecturer, Dr. Eng.	M. Hayashi
 《 Evaluation Technology, Material Development 》	
Development of High Strength Cu-Ni-Co-Si Alloys for Ultra-Miniaturized Springs and Connectors	260
Technology Center, DOWA METALTECH Co.,LTD., Senior Researcher	T. Kimura
Technology Center, DOWA METALTECH Co.,LTD., Chief Researcher, Dr. Eng.	W. Gao
Technology Center, DOWA METALTECH Co.,LTD., Researcher	T. Kamada
Technology Center, DOWA METALTECH Co.,LTD., Manager	F. Sasaki
Technology Center, DOWA METALTECH Co.,LTD., Director, General Manager, Dr. Eng.	A. Sugawara
