

Aircraft Engineering and Aerospace Technology

An International Journal

Number 2

- 82 Access this journal online
- 83 Operation of an auto-initiated pulsed plasma thruster
Abhijit Kushari and Kelvin Loh
- 91 Experimental study of water hydraulics application in aviation
Patrick S.K. Chua and F.L. Tan
- 99 Boundary layer effects on a wing in ground-effect
D.W. Marshall, S.J. Newman and C.B. Williams
- 107 Fast trajectory planning based on in-flight waypoints for unmanned aerial vehicles
A.R. Babaei and M. Mortazavi
- 116 Dynamics and control of a tri-axis satellite attitude simulator
Jinjun Shan
- 126 Preliminary design correlations for twin civil turboprops and comparison with jet aircraft
Xenakis Vouvakos, Yannis Kallinderis and Pinelopi Menounou
- 134 Paper from the *AEAT* archives
- 137 Letter to the Editor
