

Aircraft Engineering and Aerospace Technology

An International Journal

Number 1

- 2 Access this journal online
- 3 Note from the publisher
- 4 Editorial
- 5 Terry Savage MRAeS
- 6 Stability analysis of liquid hydrogen turbopump-seal rotor system with internal damping
Changqing Bai and Qinyu Xu
- 14 Analysis of causes of decohesion of a gas turbine blade made of EI 867-WD alloy
Józef Błachnio
- 21 Application of MAO-processed ceramic layer in micro thrusters
Xiaoming Kang, Tiezhu Xin, Feng Jin, Lei Dong and Wansheng Zhao
- 26 A SINS/CNS deep integrated navigation method based on mathematical horizon reference
Wu Xiaojuan and Wang Xinlong
- 35 A new approach to air traffic controller workload measurement and modelling
Hakan Oktal and Kadriye Yaman
- 43 Vibrational genetic algorithm enhanced with neural networks in RCS problems
Y. Volkan Pehlivanoglu and Oktay Baysal
- 49 Paper from the AEAT archives
