

Aircraft Engineering and Aerospace Technology

An International Journal

Number 3

- 126 Access this journal online
- 127 Design optimization of a mixed-flow compressor impeller for a small turbojet engine
Mert Cevik and Oguz Uzol
- 138 Disassembly sequence planning for maintenance based on metaheuristic method
Lu Zhong, Sun Youchao, Okafor Ekene Gabriel and Wu Haiqiao
- 146 Guidance algorithms for proximity to target spacecraft
Shunan Wu, Zhaowei Sun, Gianmarco Radice and Xiande Wu
- 154 Elevators in autogyro propeller wake enable low-speed pitch control
Matthew J. Traum
- 160 Estimation method combining aircraft kinematics, GPS, and low-quality rate gyros
Sanghyuk Park
- 171 Development of integrated rotorcraft design and virtual manufacturing framework
Ngoc Anh Vu, Than Lin, Abdulaziz Azamatov, Tun Lwin and Jae-Woo Lee
- 186 Paper from the AEAT archives
